

# CHEVROLET

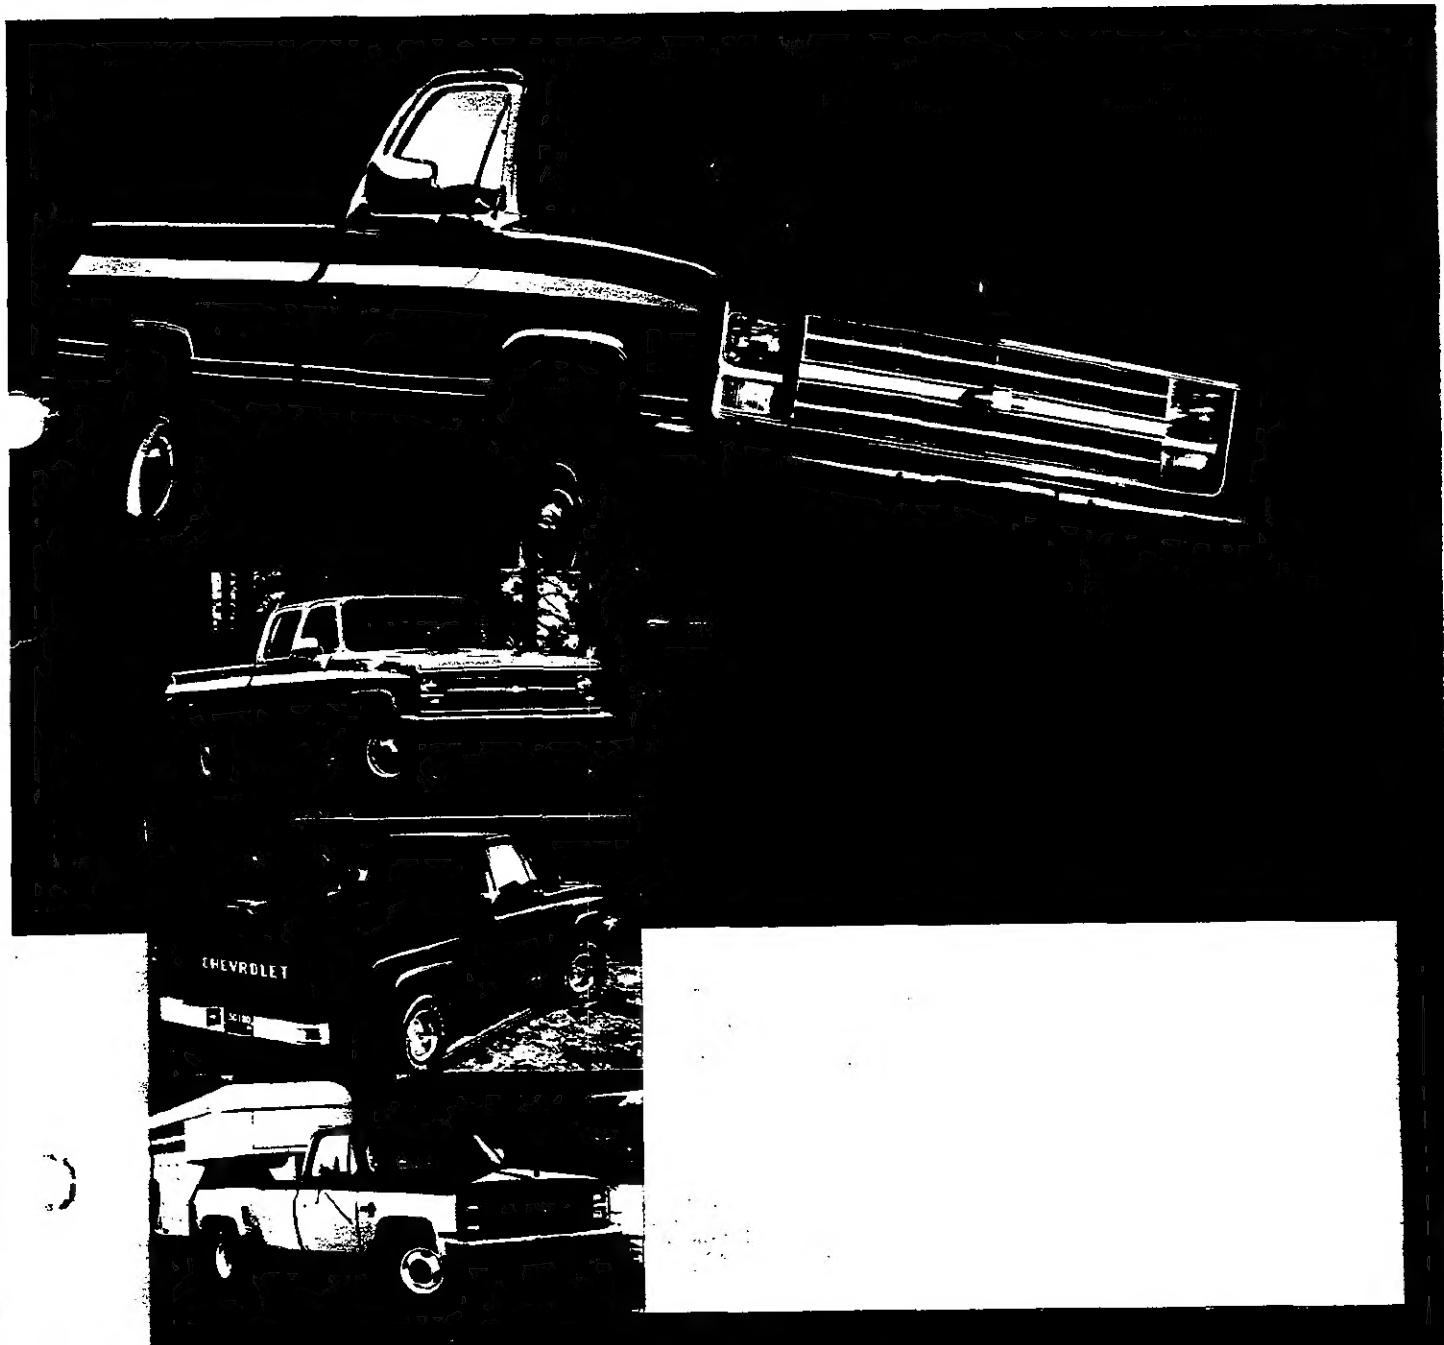

1987

# R/V PICKUPS

1987 -- ORIGINAL

# R/V PICKUPS

## EXTERIOR

- All paint colors and placements are carryover for 1987.
- The use of windshield and rear quarter window moldings with bright bead in Scottsdale, RPO Z62, and Silverado, RPO YE9, has been discontinued.
- New "Fuel Injection" nameplate is located on LH side of tailgate for Fleetside models; RH side for Stepside models.

## CAB

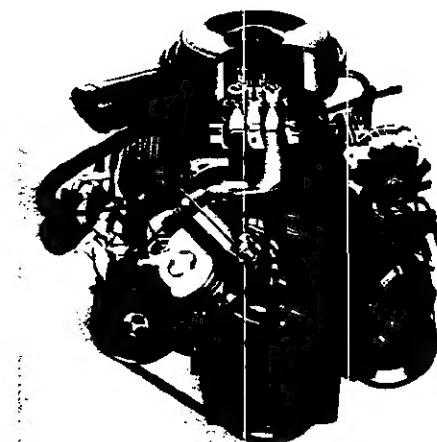

- Precise seat-back angle and thoughtfully designed bench seat cushion result in comfortable seating positions.

- Wet-arm windshield wiper/washer system provides for a precise spray and good cleaning of the windshield.
- Large fuse block provides good serviceability.

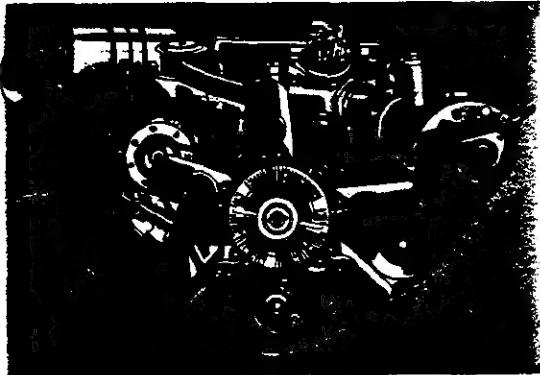

- Manual locking hubs are standard on all V models while automatic locking hubs are available on V10 models only.

## CHASSIS AND POWER TEAM

- Vortec 4.3 Liter V6 gasoline engine—modern, even-firing V6 with swirl-port combustion chambers and Electronic Fuel Injection—is standard on R10, R20 and V10 models.
- Impressive horsepower for the 6.2 Liter Diesel on vehicles over 8,500 lbs. GVWR—148 net HP.

## R/V PICKUPS

Delcotron generator capacities have been increased for all gas engine applications. The base capacity increases from 37 amps to 66 amps. Those models equipped with air conditioning, auxiliary heater or rear defogger have a 94-amp unit.

All gas engines feature a 5-ribbed poly-vee generator accessory belt drive for greater

belt durability and more positive drive.

All-season tread design tires are standard on all R10 and V10 models. These steel-belted radial tires are designed for foul-weather traction, low noise level and long tread life.  Self-adjusting hydraulic clutch control system provides smooth operation and good drivability.

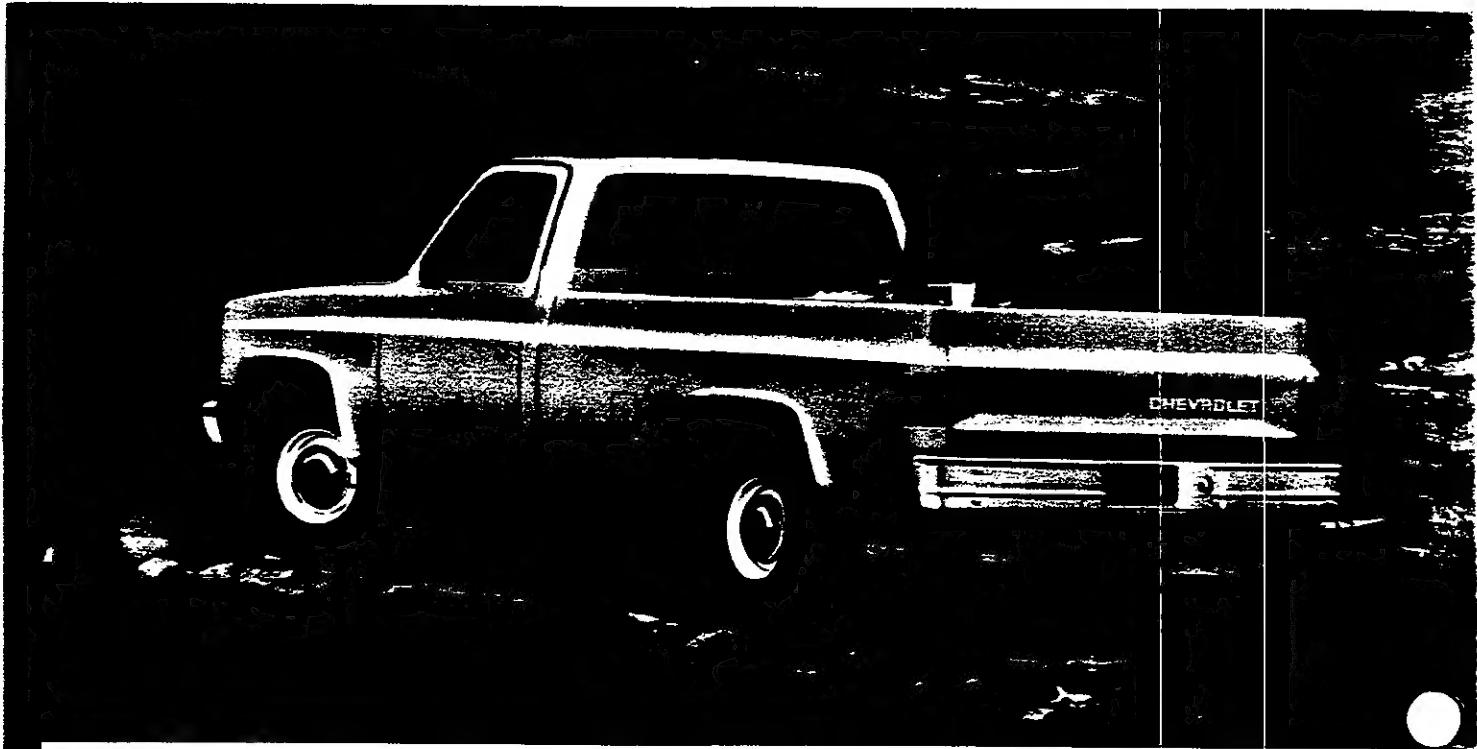

### OPTIONS

Deluxe Front Appearance Option RPO V22 standard on Silverado. Highlights include dual rectangular headlamps and grille with body-color paint center-bar treatment.  Value Decor Package combines solid color paint with a stripe configuration. Available

only on Fleetside Pickups with regular cab and single rear wheels.

Custom Vinyl and Custom Cloth seat fabric for upper trim levels.  Special mounting system for camper-type mirror to reduce vibration.  All optional 15" highway-tread steel-belted radial tires feature all-season tread.  Front tow hooks are available on all models.  Cast aluminum wheels for pleasing appearance include four 15" x 7" wheels and center hub covers.

## REGULAR CAB STANDARD VALUE FEATURES

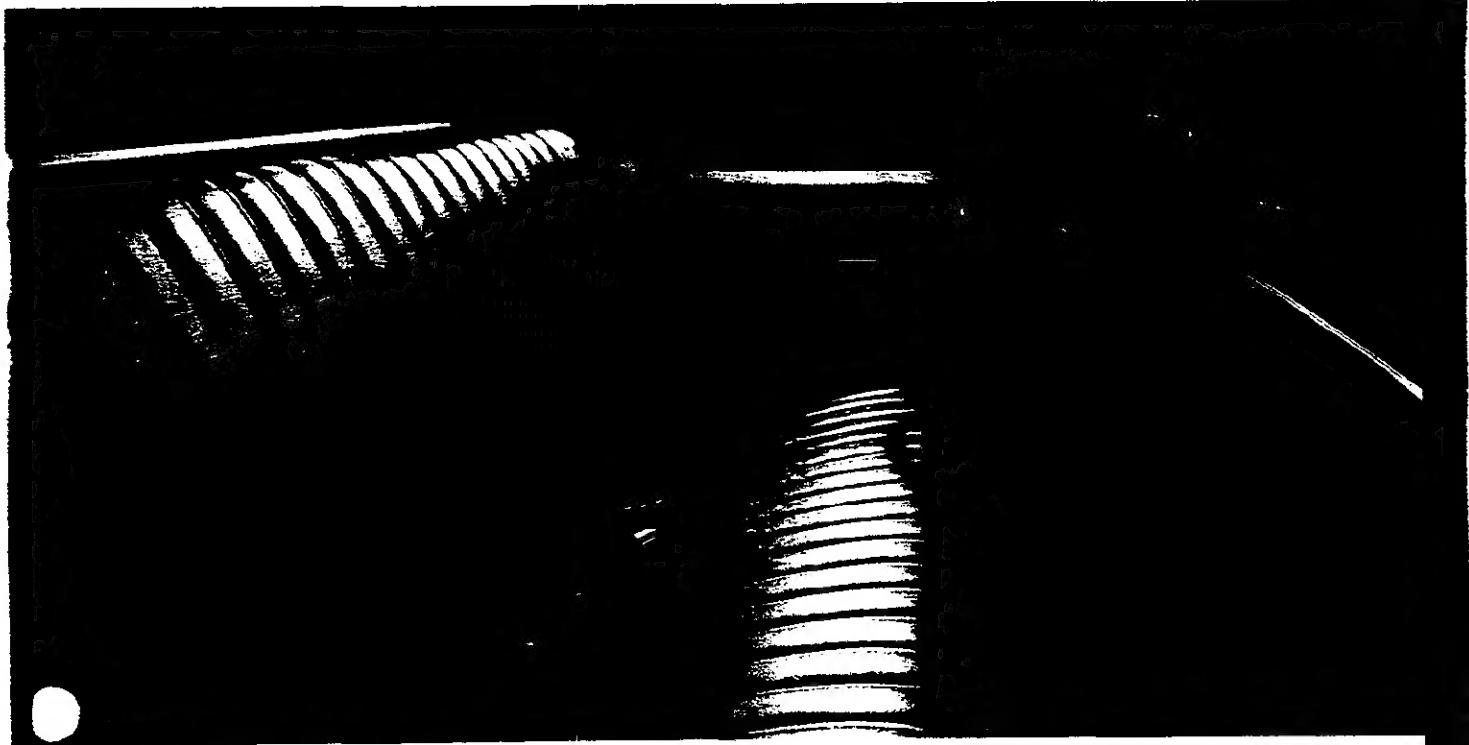

### ALL THIS AT NO EXTRA COST:

- Girder beam independent front suspension with contoured control arms, coil springs and hydraulic shock absorbers helps maintain a smooth, steady ride (R10 models only).
- Two-stage multileaf rear suspension offers progressive support for heavier loads.
- Counter-angled rear shock absorbers help reduce power hop.
- Carbon steel ladder-type frame for a strong foundation.
- Rubber-bushed cab mounts help isolate road noise.

- Self-adjusting hydraulic clutch control for smooth operation with manual transmission.
- Sealed clutch housing on 4-wheel-drive models with manual transmission.
- Semi-metallic front and non-asbestos rear linings on most R/V10-20 models.
- Heavy-duty shift controls for four-speed, manual overdrive transmissions.
- Front bumper-mounted air dam on R10-20 models up to 8,500 lbs. GVWR contributes to fuel economy.
- All-season tread design steel-belted radial tires standard.
- Low-drag front disc brakes contribute to fuel economy and reduce rolling resistance.
- Audible wear sensors on front brakes signal when to replace front brake pads.
- High Energy Ignition system for quick starts, reduced maintenance.
- New lightweight "flat top" Freedom battery never needs water.
- Double-wall hood, doors, fender and pickup-box construction adds to structural rigidity.
- Bright metal roof drip moldings direct water away from door openings.
- Chromed front bumper and bright metal hubcaps for attractive appearance.
- Baked-on acrylic enamel paint.
- Bright exterior mirrors, both sides.

## REGULAR CAB STANDARD VALUE FEATURES

- Five cab-interior trim colors—wide choice to suit preference.
- Color-keyed door trim panels.
- Seat trim materials of standard vinyl.
- Multi-function switch on steering column for turn signals, wiper/washer and headlamp dimmer.
- Counterbalanced hood for easy opening and closing.
- Inside hood release for increased theft protection.
- Dual 16" electric 2-speed wipers for large wipe area.
- Wet-arm windshield wiper/washer system for precise fluid spray and efficient coverage.
- Large padded armrests and sunshades for convenience.
- Large front windshield glass area. A total of 1,421 square inches for excellent visibility.
- Adjustable side-door vent-panes for draft-free ventilation.
- Day/night inside rearview mirror.
- Fully padded instrument panel for safety and appearance.
- Front-removable instrument cluster is easy to service.
- Theft-deterrent steering column.
- Full-foam seat cushion.
- Folding seat-back with inertia-type latch.
- Standard seat belt retractors incorporate an automatic comfort feature.
- Molded resinated cotton floor and toe panel insulators for improved floor-mat fit and noise reduction.
- Deluxe air heater and defroster for comfort.
- Cab interior light.
- Coat hooks.
- Stowage compartment with door in instrument panel for convenience.
- Large fuse block for easy serviceability.
- Keyless door locking for easy vehicle locking.
- Two-key system for theft protection.
- Impressive corrosion protection with two-sided galvanized steel in critical areas.
- Full front wheelhousings with engine compartment shields for splash protection.
- Zincrometal® hood inner panel.

## BONUS AND CREW CAB STANDARD VALUE FEATURES

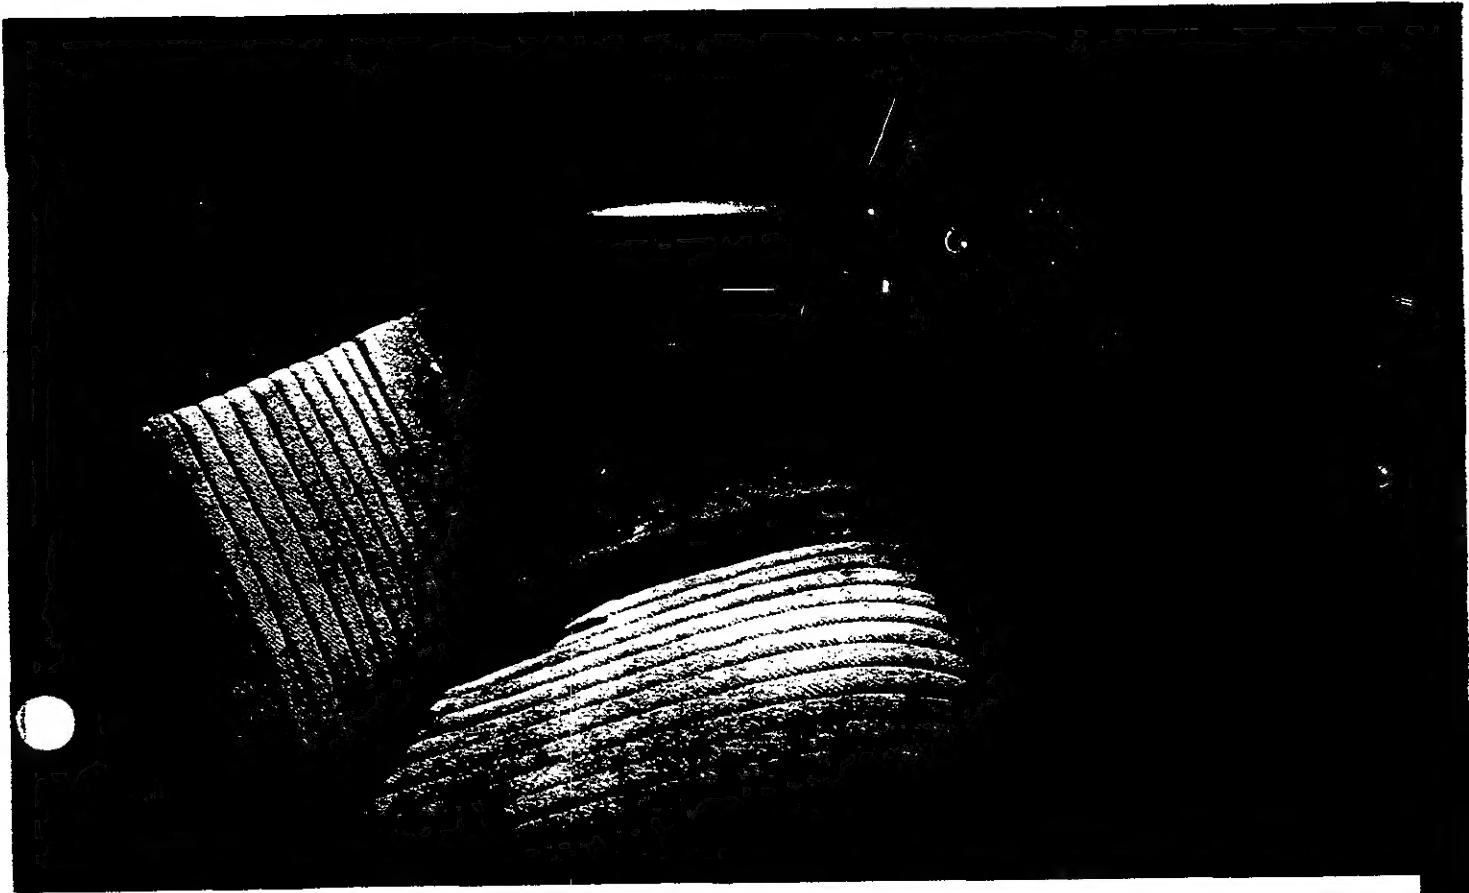

- Wide-opening cab doors. Easy entrance and exit.
- Lockable rear cargo space. 55.8 cubic feet on Bonus Cabs.
- Large front windshield. A total of 1,421 square inches of glass area for excellent visibility.
- Double-wall hood, doors, fender and pickup-box construction adds to structural rigidity.
- New lightweight "flat top" Freedom battery never needs water.
- Self-adjusting hydraulic clutch-control for smooth operation with manual transmission.

- Low-drag front disc brakes—designed to help contribute to fuel economy and reduce rolling resistance.
- Audible wear sensors on front disc brakes.
- Chromed front bumper standard.
- Bright metal hubcaps for neat appearance.
- Baked-on acrylic enamel paint.
- Bright exterior mirrors on both sides.
- Day/night inside rearview mirror.
- Three cab-trim interior colors.

- Fully padded instrument panel for safety and appearance.
- Counterbalanced hood for easy opening and closing.
- Inside hood release for increased theft protection.
- Dual 16" electric 2-speed wipers for large wipe area.
- Wet-arm windshield wiper/washer system for precise fluid spray and efficient coverage.
- Large padded armrests and sunshades for convenience.
- Adjustable front side-door ventipanes for draft-free ventilation.

## BONUS AND CREW CAB STANDARD VALUE FEATURES

- Convenient four-door access from either side.
- Keyless door locking for easy vehicle locking.
- Two-key system for theft protection.
- Front-removable instrument cluster is easy to service.
- Easy-to-reach instrument controls.
- Theft-deterrent steering column.
- Cab interior light.
- Coat hooks.
- Deluxe air heater and defroster for comfort.
- Full-foam seat cushion (front and rear in Crew Cabs, front only on Bonus Cabs).
- Folding seat-back with inertia-type latch (rear seat Crew Cab only).
- Two-tone leather-grain vinyl material on standard bench seat.
- Shoulder belt retractors incorporate an automatic comfort feature.
- Crew Cabs only: 2 full-width bench seats for up to 6 passengers.
- Large fuse box for easy serviceability.
- Full front wheelhousings with engine compartment shields for splash protection.
- Impressive corrosion protection with two-sided galvanized steel in critical areas.

# FLEETSIDE PICKUP BOX VALUE FEATURES

## FLEETSIDE

- 6½- or 8-ft. body length.
- Ribbed steel floor standard.
- Integral stake pockets with cargo tie-down provision.
- Two stake pockets each side on 6½-ft. box.
- Three stake pockets each side on 8-ft. box.
- All inner panels embossed for structural rigidity.
- Width between wheel-housings: 50".
- Maximum inside width at floor: 72".
- Inside depth of box: 19.7" front and 19.3" rear.
- Impact-resistant wraparound Lexan® tail-lamp lenses.
- Galvanized high-strength, low-alloy steel for pickup box front-end panel

## STEEL CARGO FLOOR

- Standard steel cargo floor with stamped skid ribs for easy loading.

- No exposed bolt heads for better appearance.
- Embossed for added rigidity without added weight.
- Two-sided galvanized steel for corrosion protection.

## DOUBLE-WALL CARGO BOX

- Cargo dents inside don't show outside.
- Helps Fleetside retain its good looks year after year.
- Extensive use of 2-sided galvanized steel and Zincrometal®.

## ELPO (ELECTRO-DEPOSITION) PROCESS

- Thoroughly primes major pickup box steel parts and tailgate for rust protection.
- Panels immersed in electrically charged primer.

- Paint emulsion penetrates all hidden crevices for corrosion protection.

## FLAT-TOPPED WHEELHOUSINGS

- Permit more effective utilization of entire box loading area.

## DOUBLE-WALL TAILGATE

- One-hand operation.
- Quick-release feature for easy removal, especially helpful to campers. Simply release retaining straps, lift up at right-hand trunnion and pull out from left-hand trunnion (see illustrations). To reinstall, just reverse the procedure.

- "Hemmed" construction to improve corrosion protection.

## STEP SIDE PICKUP BOX VALUE FEATURES

### STEP SIDE

- 6½- or 8-ft. body length.
- Convenient side step.
- Wood floor standard.
- Smooth inner sidewalls.
- Full-width tailgate with anti-rattle tailgate latches.
- Vinyl-covered tailgate chains.
- Lexan® tail-lamp lenses.

### PICKUP BOX

- Full 50" between sidewalls, holds 4-ft.-wide materials easily.
- Floor supported by heavy steel cross sills for added strength.
- Two-sided galvanized steel used for cross sills, skid strips, front panel, side panels, tailgate.

- Vinyl-covered tailgate chains with wedge-type anti-rattle latches.
- Two stake pockets each side on 6½-ft. box.
- Three stake pockets each side on 8-ft. box.
- ELPO electrocoating process primes Stepside cargo box front panel, sidewalls and tailgate for added corrosion protection.

### STEEL SKID STRIPS

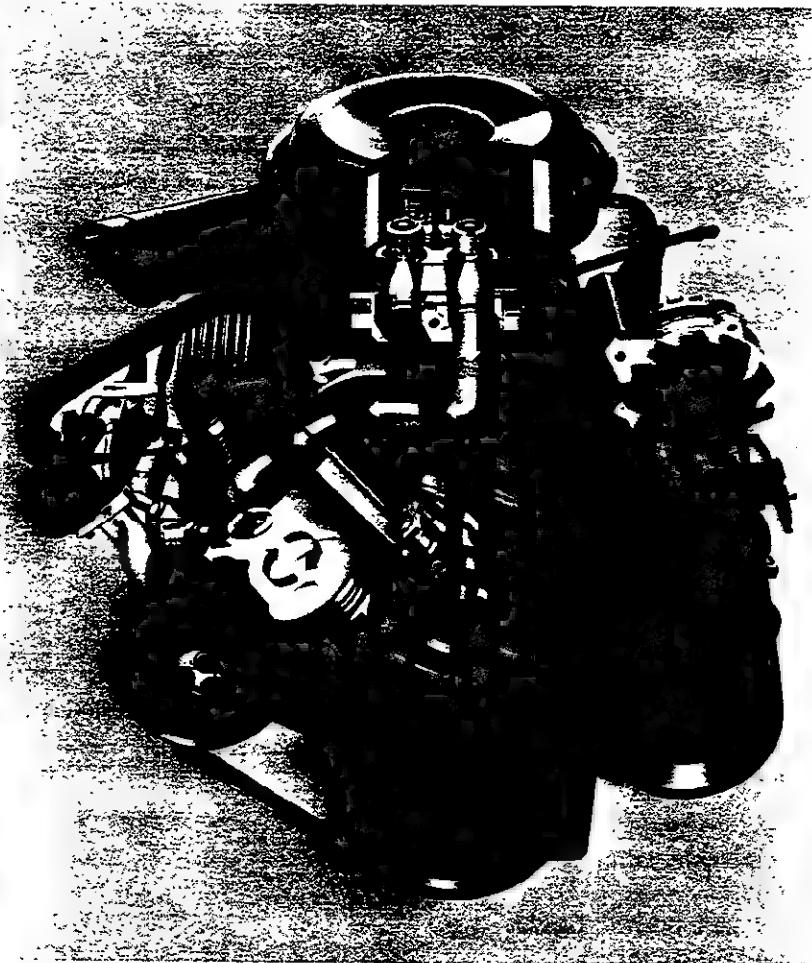

- They hold floor planks securely, yet allow for expansion during changes in temperature and humidity.
- Flush strip mounting, recessed bolt heads help prevent cargo damage while loading, unloading.

### CONVENIENT SIDE STEP

- Located between door and rear fender on both sides. The side step provides good footing and easy access to pickup box cargo from either side.

## ENGINE VALUE FEATURES

Note: for 1987, all gasoline engines in these models will be certified using light-duty emissions test procedure. This will require the use of a catalytic converter, unleaded fuel and limit the GVWR to a maximum of 10,000 lbs. Because of this, all Series 30 Chassis-Cab models with GVWR of 10,500 lbs. and 11,000 lbs. are discontinued.

### **□ THE 4.8 LITER (292 CU. IN.) L6 ENGINE** is discontinued.

All gasoline engines have Electronic Fuel Injection (EFI). The advantages are:

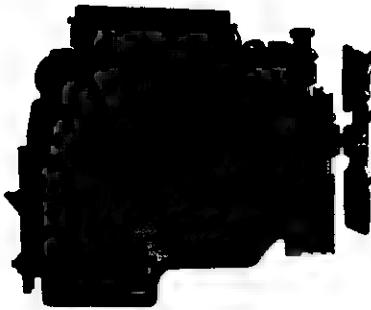

- Improved fuel control for enhanced cold starting
- Reduced plug fouling
- Improved fuel economy
- Improved drivability under all operating conditions
- Greater reliability through the use of fewer parts
- No external adjustments.

**THE VORTEC 4.3 LITER V6 ENGINE** also features anti-friction roller hydraulic valve lifters for 1987. This new feature helps reduce friction and improve fuel economy.

Design features include:

- Cylinder heads with swirl-port design
- Centralized spark plug location
- Even firing
- High-compression ratio (9.3:1)
- Electronic spark control to control spark knock
- Electronic Fuel Injection for improved performance and drivability.

## ENGINE VALUE FEATURES

**THE 6.2 LITER (379 CU. IN.) V8 DIESEL ENGINE**

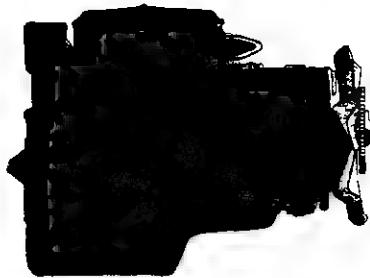

- RPO LH6 with light-duty emissions for GVWRs 8,500 lbs. and under.
- RPO LL4 with heavy-duty emissions for GVWRs over 8,500 lbs.

**THE RPO LE9 5.0 LITER (305 CU. IN.) V8 EFI ENGINE** is now available nationwide as well as California. HP and torque are increased by about 6%.

**THE 5.7 LITER (350 CU. IN.) V8 EFI ENGINE** is now available nationwide in  $\frac{1}{2}$ - and  $\frac{3}{4}$ -ton 2WD Pickups up to 8,500 lbs. GVWR and  $\frac{1}{2}$ -ton 4WD pickups. In 1986, this engine was available only in California on these models. Horsepower increases about 18% and torque about 4%.

**THE 7.4 LITER (454 CU. IN.) V8 EFI ENGINE** continues with the same availability and power ratings.

NOTE: Check power team charts for engine availability on all models.

### ENGINE RATINGS ALL STATES

SAE Net Ratings	▲4.3 Liter 262 EFI V6	▲5.0 Liter 305 EFI V8
Net Horsepower	160 @ 4000 rpm	170 @ 4000 rpm

■For models with a GVWR from 8501 lbs to 10,000 lbs.

## CHASSIS VALUE FEATURES

### RUGGED GIRDERS BEAM INDEPENDENT FRONT SUSPENSION ON SERIES R10-20-30

- Steel control arms.
- Computer-selected friction-free coil springs.
- Each wheel steps independently over rough spots to help smooth ride.
- Shielded shock absorbers to reduce stone damage.

### MULTILEAF REAR SPRINGS

- Provide a good ride with light loads, progressively firmer support as cargo weight increases.
- Spring eyes and shackles are rubber bushed to reduce noise and ride harshness.

- Counter-angled rear shock absorbers to reduce wheel hop.
- Seven-leaf rear spring for greater capacity on R/Vs with GVWR over 8,500 lbs.
- Auxiliary rear springs also available on some models.

### BRAKES

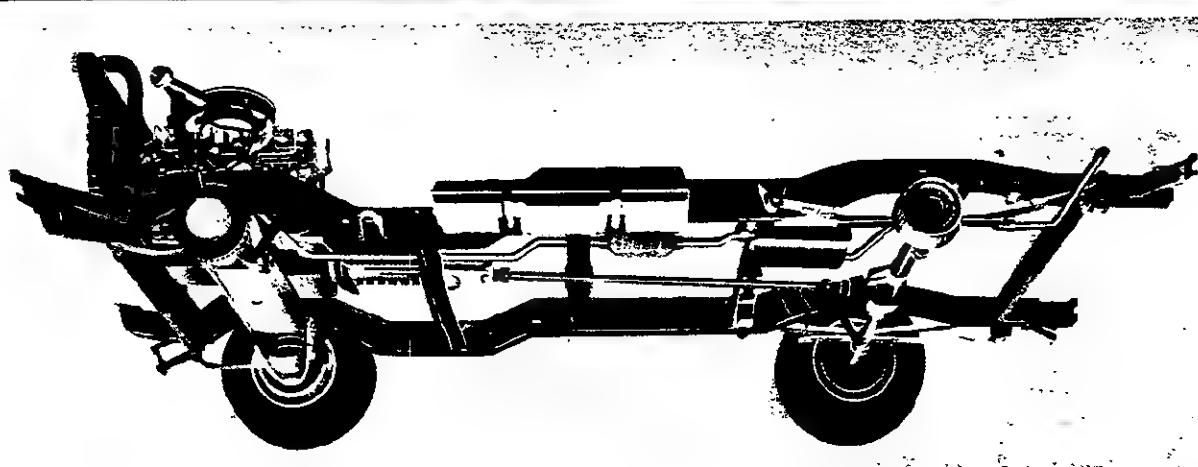

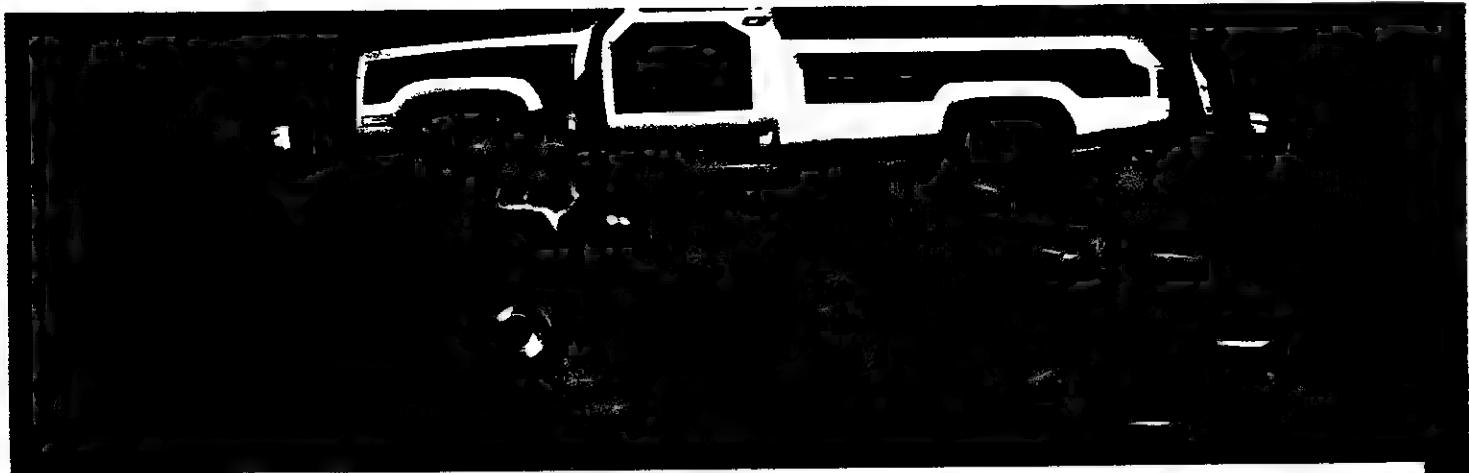

- Height-sensing brake system, using a dual split-point sensing brake valve, is standard for R/V20 Series equipped with RPO J55 and all R/V30 models. The valve provides optimum brake balance by distributing the braking force effectively to the front and rear wheels based on light- or heavy-payload conditions.
- Semi-metallic front brake pads on R/V10-20 models and nonasbestos linings on rear of most R/V10-20s.

- Brake system matched to pickup GVW Rating.
- Shielded front discs resist fade, recover quickly from water immersion.
- Audible front disc pad wear sensor standard on all models.
- Rear drums finned for cooling, shaped to help exclude contaminants.

### FOUR-WHEEL DRIVE

- Available on all Series 10-20 and 30 models.
- Includes two-speed transfer case with lower-range gearing for rugged conditions.
- Variable-rate, leaf-type front springs with front stabilizer bar.
- Integral power steering standard on all models.

## CHASSIS VALUE FEATURES

### FUEL TANKS

- Approximate capacity: 16 gallons on short-WB models (standard, left-hand mount and fill).
- Auxiliary fuel tank available on all models: Dual 16 gallons on R10, R20 models (8,500 lbs. GVWR and under), dual 20 gallons on long WB diesel and all R20-30 models over 8,500 lbs. GVWR.
- Plastic fuel tank bottom shield helps guard against punctures.

### TIRES

- All-season steel-belted radial tires, designed for foul weather traction, are standard on all R10 and V10 models.

### FRAME SIDE RAILS

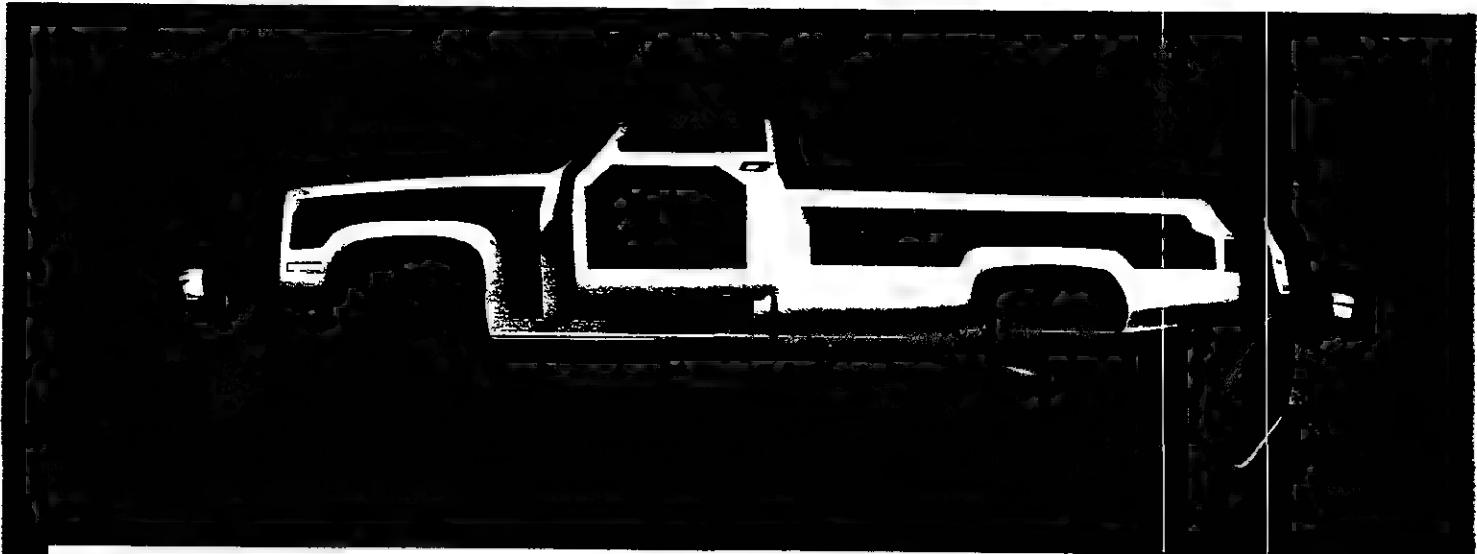

- Full-depth, solid channel-type frame.
- Ladder-type construction.
- Drop center design for lower cab floor height allows easy entry and exit.
- Basic material for all frames is carbon steel with a yield strength of up to 39,000 lbs. psi.

- Frame width tapers at the front to accommodate the front suspension and is wider at the rear for stability.

### FRAME CROSS MEMBERS

- Cross members are securely riveted to the side rails and rail flanges.

## ANTI-CORROSION VALUE FEATURES

### FULL FRONT WHEELHOUSINGS

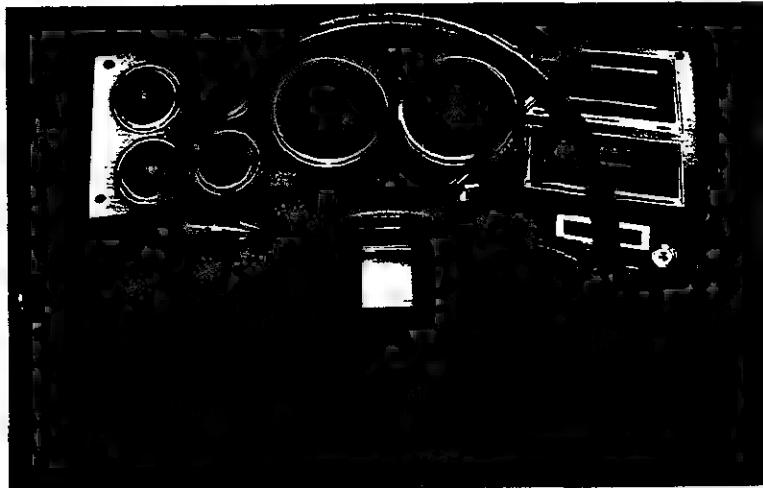

- Helps protect engine compartment and front fenders against road splash and stone damage; tough all-steel bathtub-type.
- Engine compartment shields are mounted between the wheelhousings and frame rails for splash protection.

### ANTI-CORROSION MEASURES

- Special steels such as pre-coated steel, galvanized steel and zinc-iron alloy steel are used for areas especially vulnerable to corrosion.
- Protective coatings are used for certain body areas such as inner surfaces of front fender panels and outer front surfaces of the radiator support.
- All parts are thoroughly cleaned and dried.
- Body and sheet metal are primed.

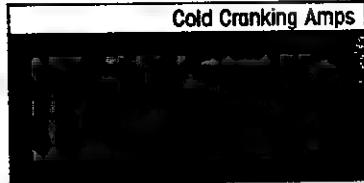

- Pickup box sidewalls, front panel and tailgate and Fleetside steel floor are totally immersed in primer and electrically charged—drawing paint into hidden seams and crevices for added corrosion protection.
- Zincrometal® for hood outer panel, front fenders, door outer panels, cab back panel, Fleetside pickup-box outer panels and tailgate.
- Galvanized steel for cab floor, inner front fenders, door frames, inner door panels, inner hood panel, pickup-box floor, front-end panel and inner side panels.
- Finish paint is baked on.
- Use of zinc-coated steel for the painted rear step bumper (RPO V43).
- Aluminum wax preservative is sprayed inside the plenum chamber, the door rocker panels, lower corners of the cab back panel and the lower portions of the doors and fenders.
- Urethane stone shields are added ahead of the rear wheelhousings on Fleetside models to reduce stone damage.
- Yards of weatherproofing butyl-rubber weather stripping are placed around doors and windows. Sealing compounds and rubber gaskets are used at joints and light enclosures. Plus a flush-and-dry system for water drainage and air drying between lower double-wall areas.
- Backed by Chevrolet's Three-Year Perforation-From-Corrosion limited warranty, Chevrolet dealers will repair or replace at no charge any part, except exhaust system components, found to have developed perforation (rust-through) due to corrosion. This warranty begins on the date the truck is first delivered or put in use and extends for 36 months regardless of mileage.

## MAINTENANCE VALUE FEATURES

### NEW DELCO FREEDOM BATTERY

- Lighter weight "flat top" case
- Higher cold cranking amps, except for diesels. The increases are:

- Case material designed for durability.
- Never needs water.
- Lead-calcium grids virtually eliminate overcharge and self-discharge.
- Built-in test hydrometer.
- Corrosion-protected side terminals.
- Maintenance-free.

### MAINTENANCE SCHEDULE FOR MOST VEHICLES RATED 8,500 LBS. GVWR AND UNDER

- Spark plug life, up to 30,000 miles between tune-ups.
- With unleaded fuel, engine oil stays cleaner.
- Oil changes recommended at 12 months or 7500 miles in normal driving with gasoline engines.
- Chart below shows extended service intervals. (See Service Manual for recommendations).

### INTEGRAL VOLTAGE REGULATOR

- Built into standard and optional Delcotron generators.
- Transistorized for greater reliability.

#### RECOMMENDED SERVICE INTERVALS GASOLINE ENGINES\* (TRUCKS UNDER 8,500 LBS. GVWR)

\*Severe service conditions, such as trailer towing, driving in dusty areas, frequent idling, may require more frequent service.

### INTEGRAL STARTER SOLENOID

- For positive starter engagement.

### DISTRIBUTOR WITH INTEGRAL COIL

- Eliminates separate maintenance.

### HEADLAMP AND MAIN ENGINE WIRING HARNESS

- Enclosed in plastic conduit for protection and easy service.

### FUSE BOX

- Large fuse block with tweezers-type fuse removal for easy serviceability.

### DURABLE MUFFLERS

- Heavy-gage outer shell, interior baffles.
- Aluminized inside and out for added durability.

### FRONT-SERVICED INSTRUMENTATION

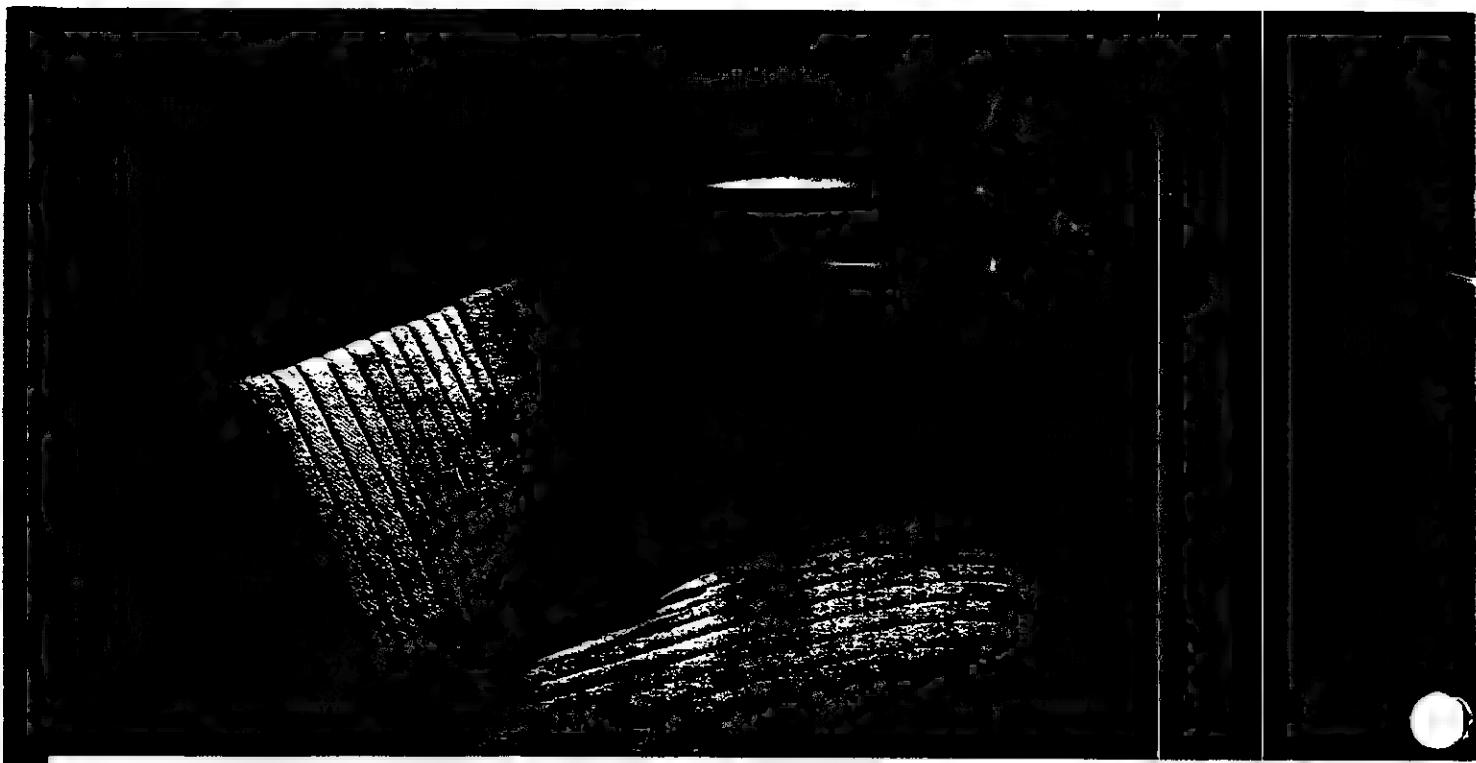

- Cockpit-type faceplate removes from front.
- Quick, easy servicing.
- Heating/air-conditioning controls also serviceable from the front.

### COOLANT RECOVERY SYSTEM

- Excess coolant collects in reservoir, returns to radiator automatically when it cools.
- Helps maintain proper coolant levels.
- Standard on all Chevrolet Pickups.

## SCOTTSDALE/SILVERADO TRIM OPTION

Scottsdale trim in Custom Vinyl.

For regular cabs, the Scottsdale option is available in Deluxe Cloth or Custom Vinyl seat trim. The Silverado option is available in Custom Vinyl or Custom Cloth seat trim. Colors: Blue, Burgundy, Charcoal, Mahogany or Saddle Tan.

For Bonus and Crew Cabs, the Scottsdale option is available in vinyl, Custom Vinyl or Custom Cloth seat trim. The Silverado option is available in Custom Vinyl or Custom Cloth seat trim. Colors: Blue, Burgundy or Saddle Tan.

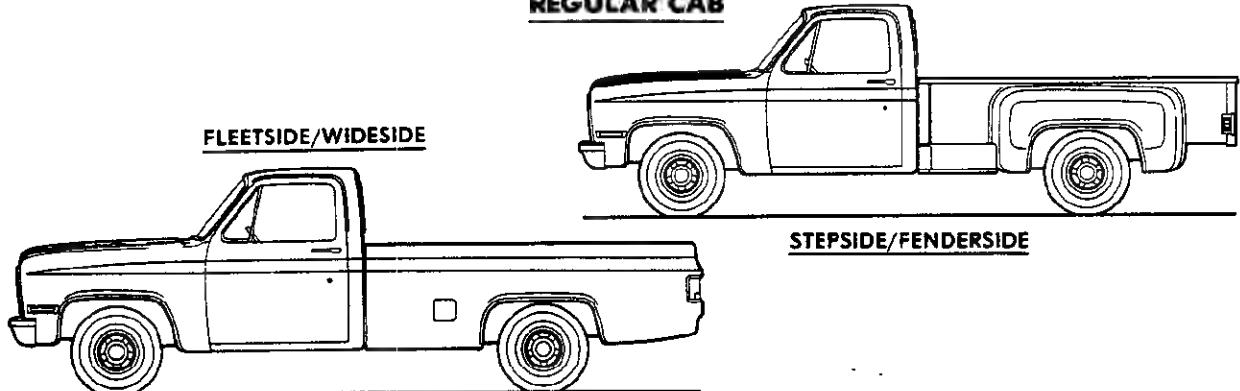

See pages D, E and F for complete details on other trim features of the Scottsdale and Silverado options.

Silverado trim in Custom Cloth.

## R/V PICKUPS

### THE FOLLOWING EQUIPMENT IS STANDARD ON DIESEL ENGINE MODELS (ALSO SEE STANDARD SPECIFICATIONS PAGES)

- Low Coolant Sensor
- Poly-wrapped Paper Element Air Cleaner
- Auxiliary Engine Oil Cooler provided with 4.56 ratio rear axle (in addition to cooler in radiator tank)
- Power Steering
- Engine Block Heater (600 watts, 120 volts)
- Water/fuel separator unit which incorporates a water sensor and sending unit, a fuel filter, a fuel heater and water drain capability
- Hydraulic Power-assisted Brakes
- K81 66-amp Generator
- Engine Oil Cooler (located in radiator tank)
- Dual 540 Cold Cranking Amp/115 min. Reserve Capacity Batteries
- HD Radiator
- Dual Exhaust System
- Additional Insulation:
  - Cab-to-fender insulators
  - Fiberglass hood insulator
  - Fiberglass engine compartment firewall insulator
  - Cowl side spray-on deadener
  - Driver compartment dash mat with increased mastic layer
  - Resinated cotton and mastic floor insulation
  - Full cowl interior trim panels with resinated cotton insulation
  - Vinyl-coated rubber floor mat for regular cab models
- Warning Lights: Glow Plugs, Water-in-fuel (or fuel filter), and Low Coolant
- Diesel Engine Identification:
  - Hood ornament
  - Fender nameplates
  - Tailgate nameplate (Fleetside/Wideside models only)
  - "Diesel Fuel Only" filler cap and label

## R/V PICKUP

### CUSTOM DELUXE/SIERRA FEATURES—STANDARD MODEL

The Custom Deluxe/Sierra standard models include the following items as standard equipment

#### INTERIOR

- **Armrests:** RH and LH padded; integral with door trim panels
- **Ashtrays:** In middle of instrument panel (all models) and in rear door trim panels (Crew Cabs and Bonus Cabs)
- **Coat Hooks:** RH (all models) and over rear doors (Crew Cabs and Bonus Cabs)
- **Colors:**  
Painted areas: Same as exterior primary color choice  
Interior trim: Coordinated with seat trim color choice
- **Door Sill Plates:** Door-opening protection and floor mat retention; full-length; black plastic for Regular Cab front doors and bright metal for Bonus Cab and Crew Cab front and rear doors
- **Door Trim Panels:** Color-keyed, embossed molded plastic with integral armrests
- **Floor Covering:** Embossed black rubber mats
- **Heater and Defogger:** Deluxe-air
- **Hood Lock Release:** Handle located on LH side under instrument panel
- **Instrument Cluster Bezel:** Black crackle finish with bright trim
- **Instruments:**  
Gages: Speedometer, odometer and fuel  
Switches Main, for control of exterior lights, instrument cluster lights, and cab interior lights; multi-function switch on steering column for direction signals by moving lever up or down (includes lane change position), headlamp beams by pulling lever toward driver, windshield wiper by turning band marked "WIPER" toward or away from driver, and windshield washer by pushing in the lever knob; ignition with key-in warning buzzer; hazard warning; heater fan  
Warning lights: Generator, oil pressure, engine temperature, seat belt, service-parking brake, direction/hazard signal, and high beam
- **Instrument Panel Control Knobs:** Soft black plastic (except heater and wiper/washer controls) with white graphic identification
- **Instrument Panel Pad:** Color-keyed, energy-absorbing foam type with grained vinyl skin; has black crackle-finished applique on RH side with bright, black, and silver trim and bright "Custom Deluxe/Sierra" nameplate
- **Insulation and Sound Deadening Material:** Dash (firewall), under front seat at center, under front floor mat, under rear floor mat and under rear seat at center on Crew Cabs, under rear floor mat on Bonus Cabs (center portion only in rearmost area) and between double-walled roof panel of regular cabs. NOTE: Extra-thick insulation used for front portion of Crew Cab and Bonus Cab rear compartment
- **Lights:** Instrument cluster and cab interior lights
- **Mirror, Rearview:** 10" prismatic with soft vinyl rim
- **Seats:** Full-width, full depth foam bench-type with embossed grained all-vinyl trim; front (all models) and rear (Crew Cabs only); includes folding backrest for regular cab seat and Crew Cab rear seat. Also available at extra cost: (1) dual-tone woven cloth/vinyl trim, or (2) all-vinyl pigskin grained trim. See Interior and Exterior Color Selection Chart for color and trim availability  
NOTE: Crew Cab models have two bench seats—seating for six; Bonus Cab models have one bench seat—seating for three
- **Seat Belts:** Front (all models): non-detachable combination lap and shoulder belts for outboard positions with emergency-locking retractors and switch in driver's lap belt retractor for buzzer warning system, lap belt with manual adjustment for center position. Rear (Crew Cabs only): lap belts with emergency-locking retractors for outboard positions, lap belt with manual adjustment for center position. All seat belts are color-keyed with pushbutton type buckles
- **Steering Wheel and Column:** 16" black, soft plastic wheel with 2 spokes; black energy-absorbing steering column with anti-theft locking feature
- **Stowage Box:** In RH side of instrument panel; door has bright turn-type latch release
- **Sunshades:** RH and LH padded; color-keyed

  - Cab back panel applique molding
  - “Chevrolet/GMC letters” nameplate on tailgate applique panel (Fleetside/Wideside only)
  - Bright applique panel fitted over central area of tailgate with black-trimmed decorative border (Fleetside/Wideside only)
  - Body side and rear moldings with black paint trim (Fleetside/Wideside models with single rear wheels only)
  - Wheel-opening lip moldings with black paint trim (Fleetside/Wideside models with single rear wheels only)
- **Cab-to-Fender Insulators**
- **Grille and Headlamp Bezel Paint:** Dark argent (Chevrolet); argent/dark argent (GMC)
- **Hood Insulator**
- **Special Headlamps:** Rectangular, dual RH and LH

#### **INTERIOR**

- **Bright Appearance Items:**
  - “Silverado/Sierra Classic” nameplate on instrument panel pad
  - MM4 four-speed transmission shift lever (C1-2-3 models)
- **Cowl Panel Trim:** Color-keyed molded plastic on entire surface of cowl side panels
- **Door Trim Panels:** Special color-keyed molded plastic with pewter-toned brush-finished upper decorative inserts having bright, black, and silver borders; cloth inserts in armrest area; vinyl stowage pockets; door closing assist straps; plus carpeting and bright trim strips on lower portions
- **Floor Covering:** Color-keyed carpeting
- **Headliner:** Perforated, color-keyed, molded cloth with fiber glass blanket backing; includes matching retainer moldings
- **Instrument Cluster:** Voltmeter, oil pressure gage, and engine temperature gage replace warning lamps; includes pewter-toned brush-finished bezel
- **Instrument Panel Pad Applique:** Pewter-toned brushed finish with bright, black, and silver trim
- **Insulation:** Headliner insulator, extra-thick insulators for entire floor area
- **Seat:** Choice of: 1) all-vinyl pigskin grained trim; or 2) textured velour cloth/vinyl trim. See Interior and Exterior Color Selection Chart for color and trim availability
- **Steering Wheel:** Bright trim on horn button
- **Trim Panels:** Color-keyed molded plastic on windshield pillars and upper rear quarter panels
- **Visor Mirror:** On RH sun visor

## R/V PICKUP

### **SILVERADO/SIERRA CLASSIC MODEL OPTION—RPO YE9 (FOR CREW CAB AND BONUS CAB MODELS)**

This option includes all items in the Scottsdale/High Sierra model option plus the additions or substitutions listed below

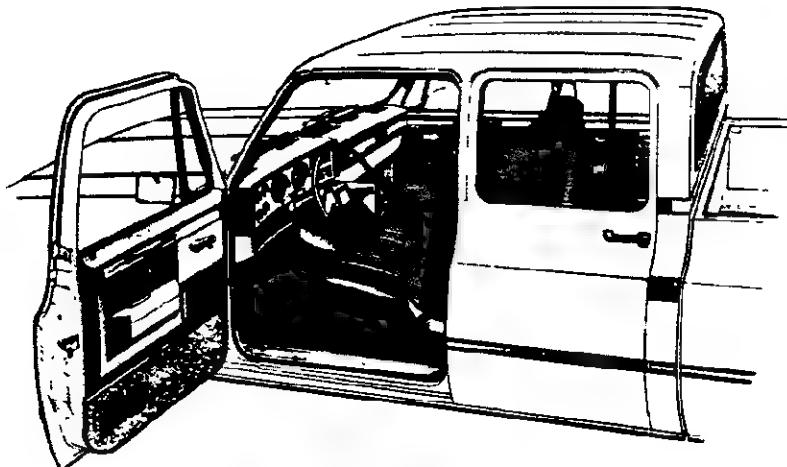

Chevrolet model shown (GMC model available)

#### **EXTERIOR**

- **Bright Appearance Items:**  
"Silverado/Sierra Classic" nameplates, with series designation, on front fenders  
Cab back panel applique molding  
"Chevrolet/GMC letters" nameplate on tailgate applique panel  
Chrome-trimmed grille (Chevrolet models only)  
Body side and rear moldings with black paint trim (models with single rear wheels only)  
Wheel-opening lip moldings with black paint trim (models with single rear wheels only)

Bright applique panel fitted over central area of tailgate with black-trimmed decorative border

- **Cab-to-Fender Insulators**
- **Grille and Headlamp Bezel Paint:** Dark argent (Chevrolet); argent/dark argent (GMC)
- **Hood Insulator**
- **Special Headlamps:** Rectangular; dual RH and LH

#### **INTERIOR**

- **Bright Appearance Items:**  
"Silverado/Sierra Classic" nameplate on instrument panel pad  
MM4 four-speed transmission shift lever (C2-3 models)  
Trim on door trim panels and horn button
- **Cowl Panel Trim:** Color-keyed molded plastic on entire surface of cowl side panels
- **Door Trim Panels:** Special color-keyed molded plastic with pewter-toned brush-finished upper decorative inserts having bright, black, and silver borders, cloth inserts in armrest area; vinyl stowage pockets and door closing assist straps (on front units only); plus carpeting and bright trim strips on lower portions
- **Floor Covering:** Color-keyed carpeting. (Except Bonus Cab rear compartment)
- **Instrument Cluster:** Voltmeter, oil pressure gage, and engine

temperature gage replace warning lamps; includes pewter-toned brush-finished bezel

- **Instrument Panel Pad Applique:** Pewter-toned brushed finish with bright, black, and silver trim
- **Insulation:** Extra-thick insulators for entire front and rear compartment floor areas, except under rear portion of Bonus Cab floor mat
- **Seats:** Choice of: 1) all-vinyl pigskin grained trim; or 2) textured velour cloth/vinyl trim. See Interior and Exterior Color Selection Chart for color and trim availability. NOTE: Crew Cab models have two bench seats—seating for six; Bonus Cab models have one bench seat—seating for three
- **Steering Wheel:** Bright trim on horn button
- **Visor Mirror:** On RH sun visor

## R/V PICKUP

### PICKUP SEAT

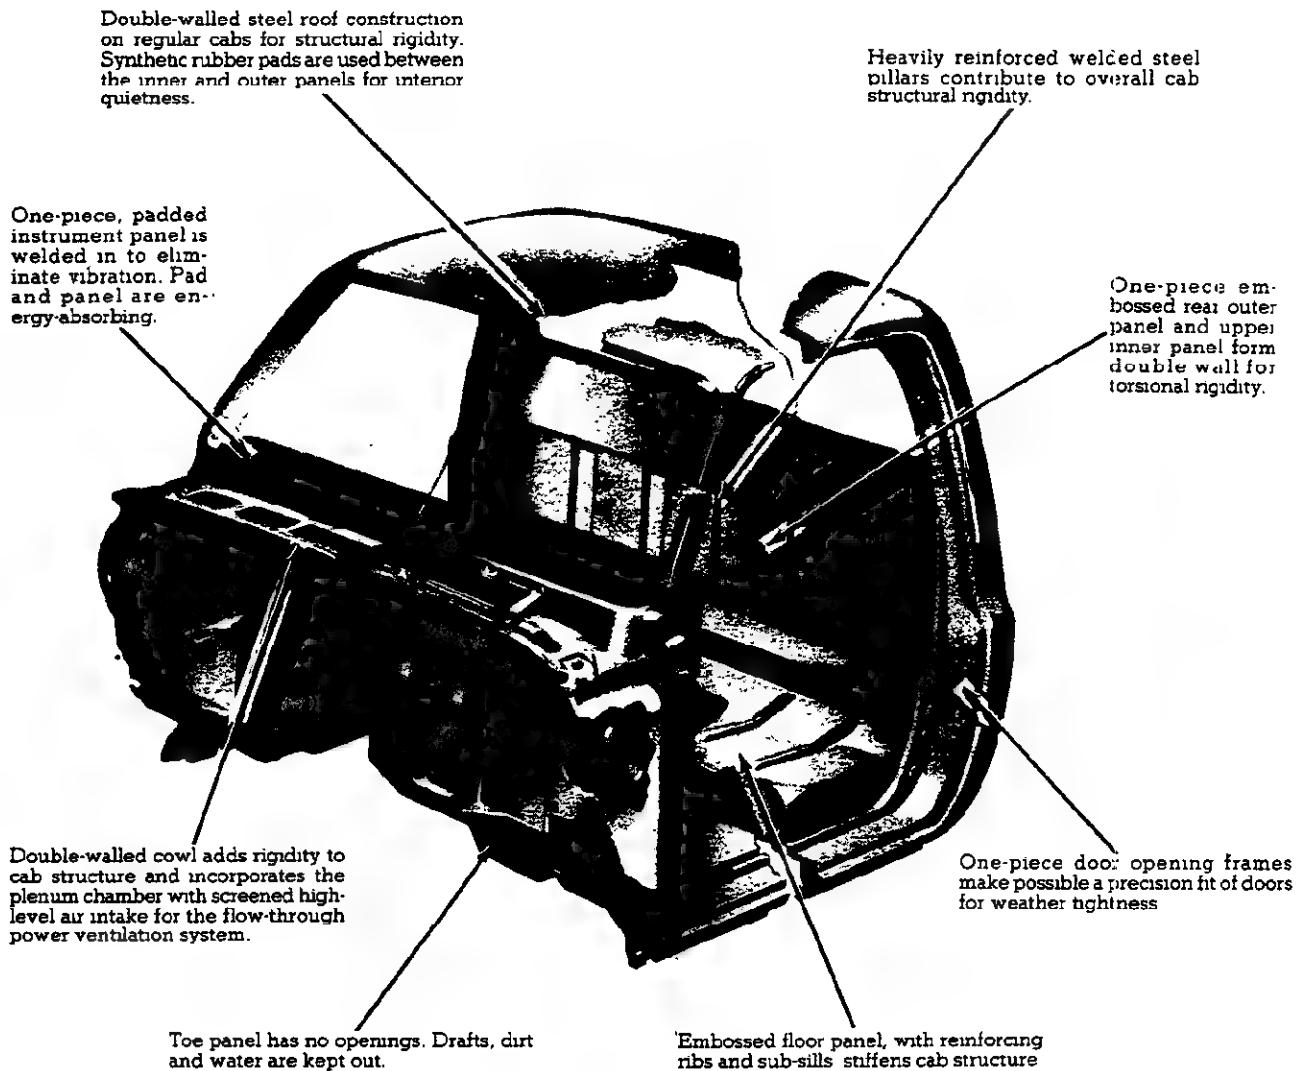

#### **STANDARD FULL-DEPTH FOAM SEAT**

Molded polyurethane foam pads over a steel cushion spring and frame assembly and a backrest frame assembly provide resilient support for driver and passengers, with an extra-thick pad employed for the cushion. A folding type backrest with inertia latch is used for the Regular Cab front seat and Crew Cab rear seat, providing convenient access to the stowage area behind the seat. Front seats are adjustable fore and aft. Trim is durable, easy-to-clean vinyl.

## R/V PICKUP

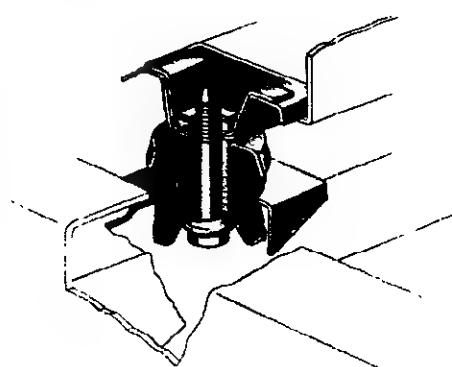

### CAB CONSTRUCTION

### CAB MOUNTINGS

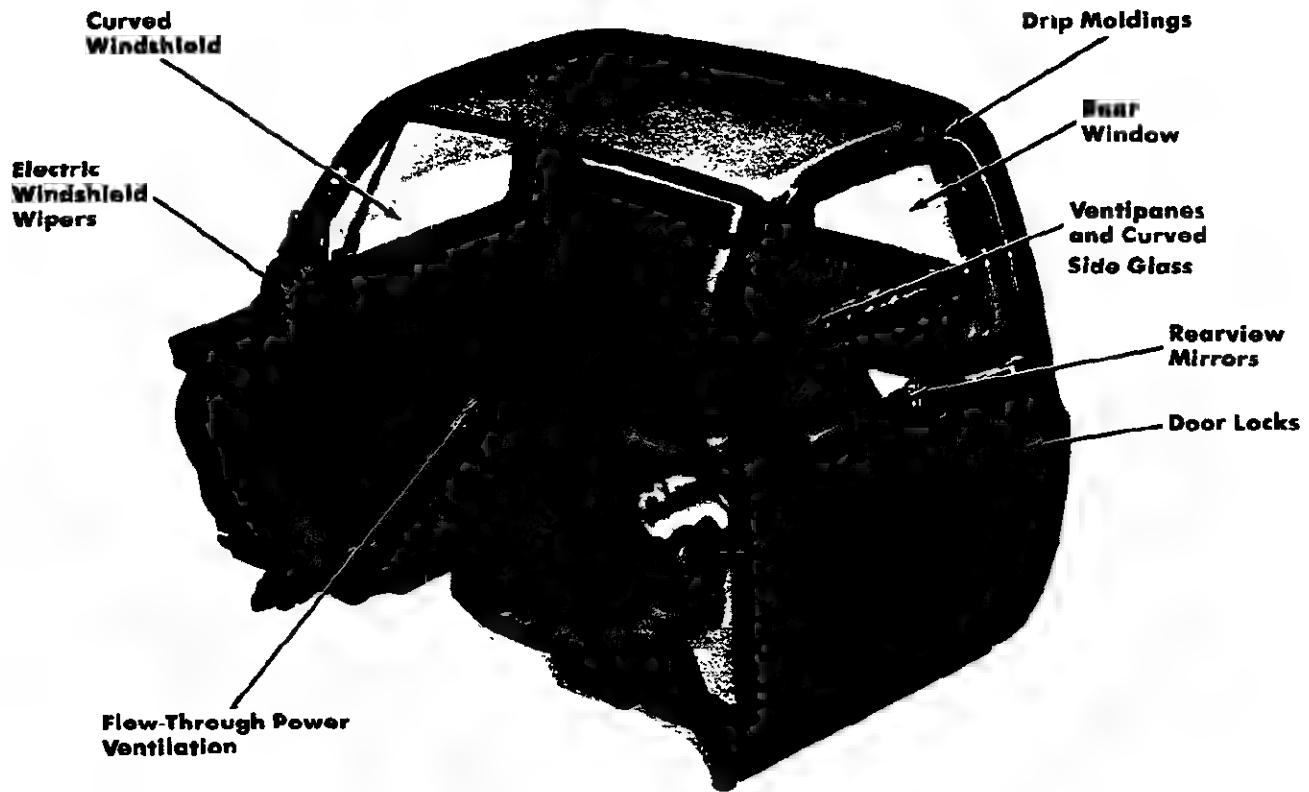

Typical Cab Mount shown.

Both front and rear cab mounts used are the compression-rebound type for quietness and durability.

# R/V PICKUP

## STANDARD CAB FEATURES

**Curved Windshield**—The large, one-piece windshield of laminated safety glass has an area of approximately 1421 square inches for excellent visibility.

**Rear Window**—The rear window is of solid safety glass with a 771 square inch area.

**Electric Windshield Wipers**—High-capacity, 2-speed motor provides constant wiping action regardless of engine load or accelerator position. Wipers have 16-inch blades. Wiper arms and the metal portions of the blades have a black finish. Electric washers with a 3-pint capacity reservoir are also standard. Dual orifice washer nozzles assure efficient washing action.

**Drip Moldings**—Bright metal moldings over side doors.

**Flow-Through Power Ventilation**—With ignition switch on and heater fan switch on, outside air enters the cab through the louvers in the cowl air intake grille between the hood and the windshield—away from road

dust, heat and fumes. The air passes through screened inlets into a plenum chamber built into the cowl, where water is separated from the air and drained out. Air enters the driver compartment through the heater (or optional air conditioning) system and exits through a pressure relief valve in each door. Additional air may be admitted into the interior through two inlets—one on the right side (except with optional air conditioning) and one on the left side of the lower cowl structure. Inlet valves are operated by levers integral with the inlet assemblies.

**Ventipanes and Curved Side Glass**—Additional flow of outside air can be controlled by a pivot-type ventipane in each front door. Friction-type latches with push-button locks and smoothly contoured handles assure excellent sealing and security. Ventipanes, as well as curved door windows, are of solid safety glass with an area of 546 square inches for each side. (Crew Cab and Bonus Cab rear side door glass area—488

sq. in. each.)

**Rearview Mirrors**—Standard chrome extenor mirrors are of the fixed arm type with 5-7/16" wide x 4" high adjustable heads. Both right-hand and left-hand units are provided.

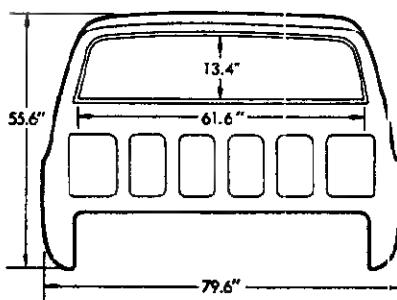

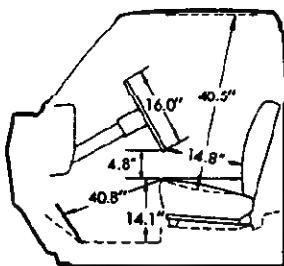

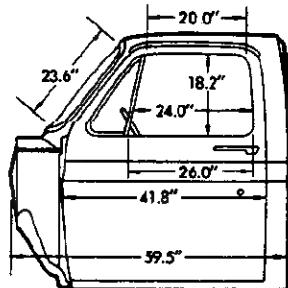

Many optional mirror combinations are also available. See the Optional Equipment listing for each model.

**Door Locks**—All cab models include left and right hand key-operated (front) door locks as standard equipment. Depression of inside pushbuttons prevents accidental front and rear door opening and provides keyless front door locking when leaving the vehicle. Door lock key is separate from the ignition key for theft protection.

**Identification and Clearance Lights**—All models with second unit bodies 80" wide or over, or models with dual rear wheels, are equipped with cab identification and clearance lights. See individual model specification pages.

## R/V PICKUP

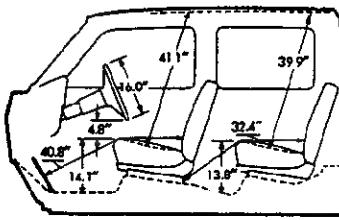

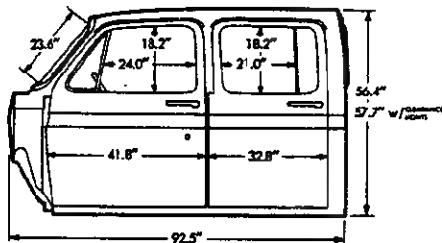

### CAB DIMENSIONS\*

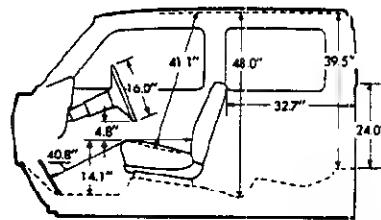

#### Glass Area (sq. in.)

Windshield	.....	1421	Rear side door window (each side) on Crew Cab including fixed window	488
Front side door window (each side) including ventipanes	.....	470	Rear window	771▲

▲675 sq. in. with sliding rear window.

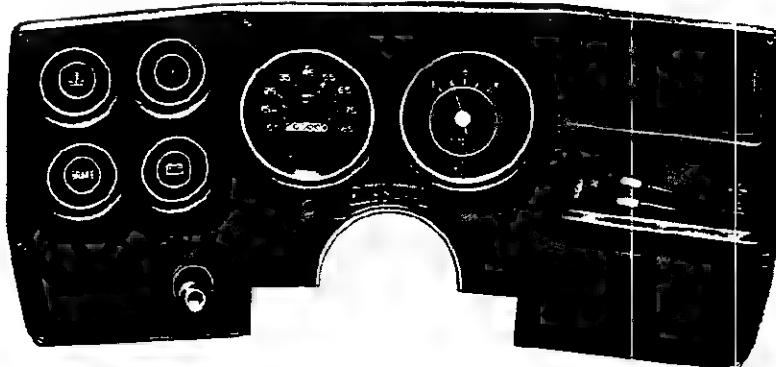

(Crew Cab model)

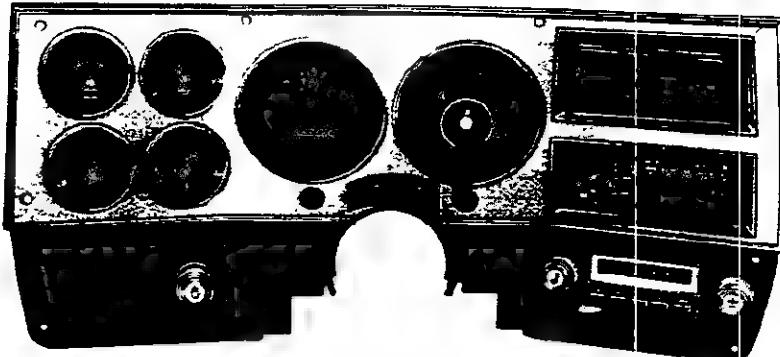

(Bonus Cab model)

\*All interior dimensions measured with front seat in rearmost position. Seat travel is 5".

## INSTRUMENT CLUSTERS

**Standard Cluster** with warning lights for engine temperature, generator, and oil pressure. Diesel engine models will also have warning lights for glow plugs, low coolant and water-in-fuel (or fuel filter).

**Optional Cluster (RPO Z53)** with voltmeter, engine temperature gage, and oil pressure gage. Included in Silverado/Sierra Classic model option (RPO YE9) along with bright brush-finished trim, as illustrated. Cluster faceplate for Custom Deluxe/Sierra (Std.) models has black crackle finish. An electric clock (RPO U35), shown at lower left, is available for use with the optional cluster.

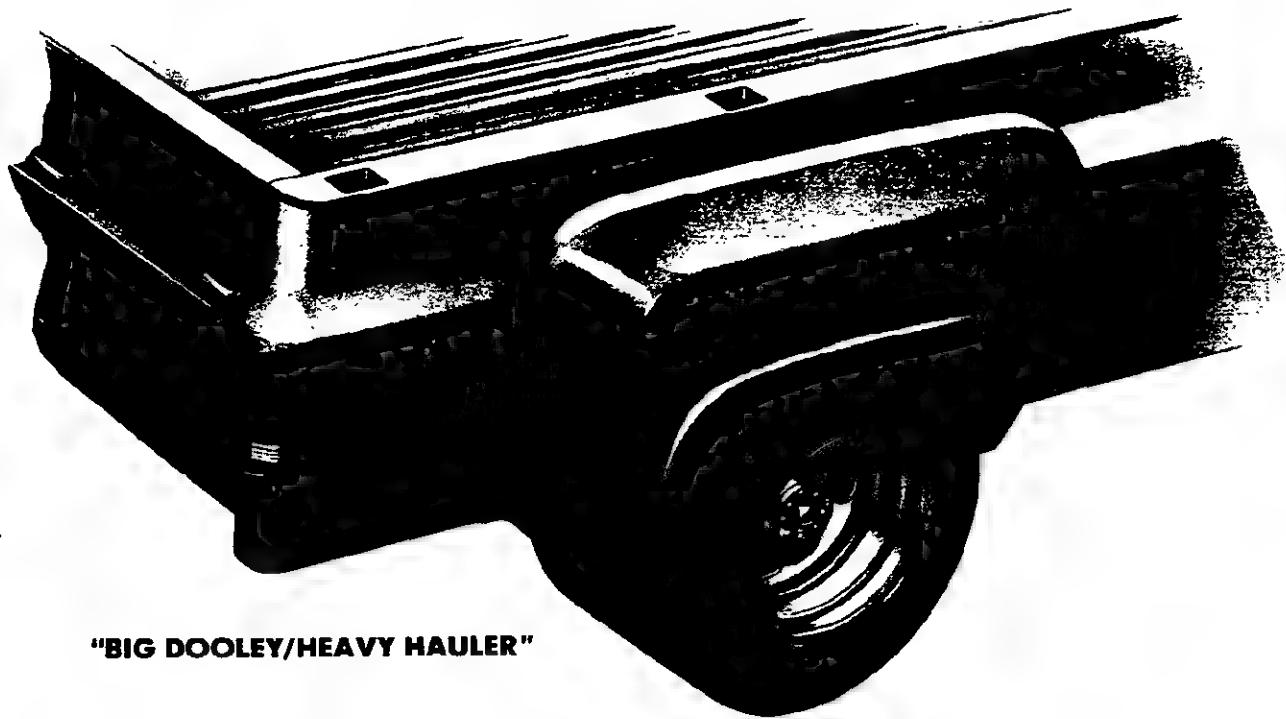

Optional air conditioning outlets and radio also shown in illustration.

# R/V PICKUP FLEETSIDE/WIDESIDE PICKUP BOX

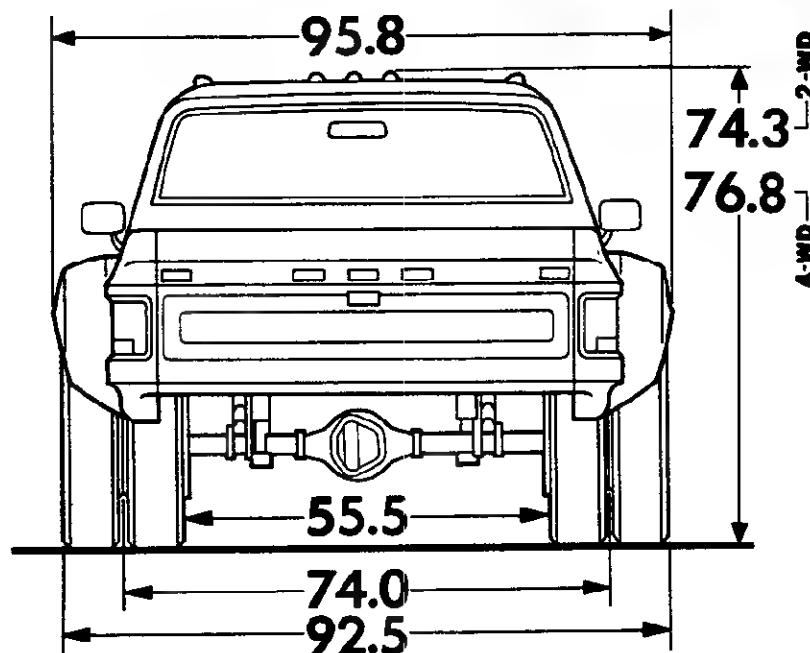

## DUAL REAR WHEEL APPLICATION

Body Ordering Code E63

### DIMENSIONS

**"BIG DOOLEY/HEAVY HAULER"**

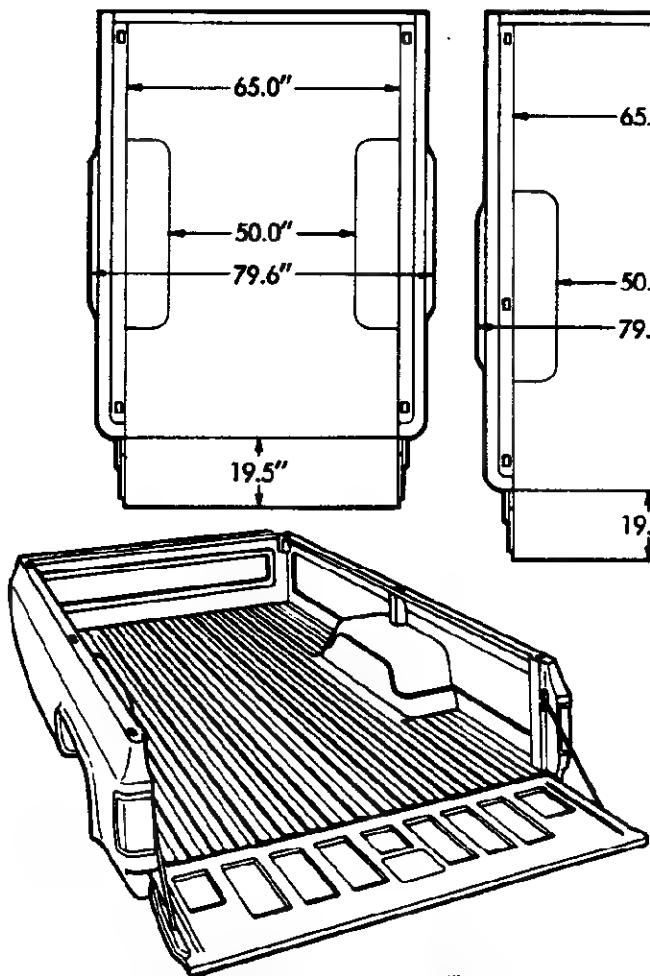

The 8-foot Fleetside/Wideside Pickup Box for dual rear wheel application offers all the features described for single rear wheel application. Additionally, it includes one-piece fenders constructed of fiberglass reinforced plastic bolted to each rear wheelhousing area. This provides an extension to cover the dual rear wheel equipment. Clearance lights are located fore and aft of the wheel openings on the fender extensions. Installation also includes five amber clearance and identification lights mounted on the cab roof along with five red rear clearance and identification lamps mounted on the tailgate (except on Series V30/3500 models where they are standard).

Fleetside/Wideside Pickup Box (Code E63) and dual rear wheels (RPO R05) are available only on models R30903, V30903, R30943, or V30943.

A Dana wider track rear axle is used when dual rear wheels are ordered on Fleetside/Wide-side pickups.

**Steel Floor**

**Stake Pocket Locations**

Stake Pocket Dimensions:  
All. 2" x 1.38" x 6" deep

Fleetside/Wideside pickup boxes feature double-walled construction in the side panels and tailgate to prevent load dents from marring the appearance of the outer panels.

All metal body panels are primed for corrosion protection, and the Elpo electro-coating process is used to prime the side panels, tailgate, floor panel, and front panel to assure that all surfaces of these more complicated components—even surfaces not visible—receive a coat of prime paint. Side outer panels and tailgate are fabricated of zinc coated steel and galvanized steel is used for stake pockets, platform panels, and rear wheelhousings to provide additional corrosion protection.

A tight fitting full-width tailgate holds such loads as grain and sand with minimal loss. It is operated by a mechanically actuated latch and retained in the horizontal position by hinged steel support straps. A quick-release feature allows it to be quickly and easily removed and re-installed by one person. The tailgate latch features one-hand operation for easy opening and closing.

Reinforced pockets (2" x 1.38") for the addition of stake racks are provided to increase the bulk carrying capacity of the box. On 6.5 ft. bodies there are two pockets on each side; on 8 ft. bodies there are three pockets on each side. See the diagram at right above for location of these stake pockets.

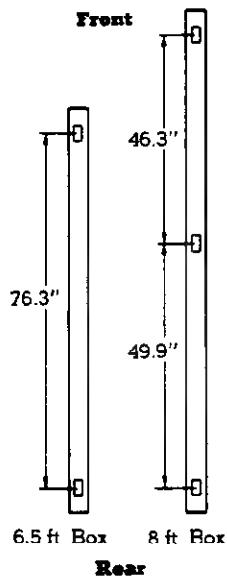

# R/V PICKUP

## STEP SIDE/FENDER SIDE PICKUP BOX

Body Ordering Code E62

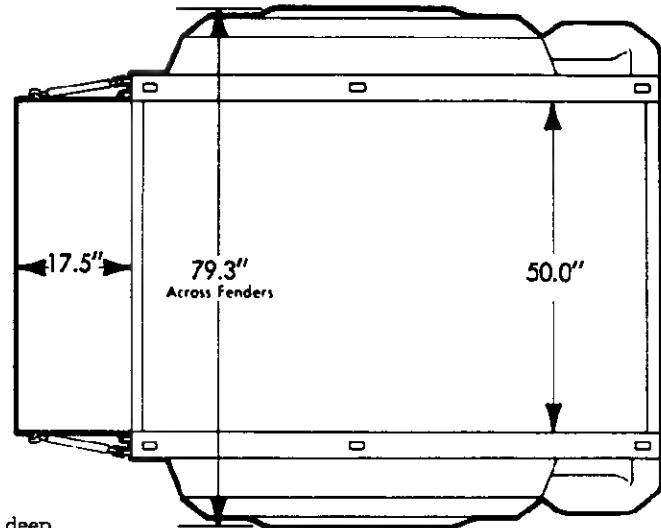

**DIMENSIONS**

### Stake Pocket Locations

6.5 ft Box      8 ft Box  
Rear

Stake Pocket Dimensions  
Front & rear: 2" x 1.38" x 6" deep  
Center (8 ft box only): 2" x 1.38" x 1.8" deep

### Body Sizes

Model	Body Length Inside	Volume
R10703	78 4"	39.7 cu ft
V10703		
R20903	98 3"	49.8 cu ft
R30903		
V20903		

The smooth interior walls of the Stepside/Fenderside pickups are a full 50 inches apart, allowing 4-ft-width materials to be carried easily. In fact, with the 98" body, 4' x 8' sheets can be carried without lowering the tailgate.

Floors are constructed of kiln-dried, sealed wood boards with seven flush steel skid strips bolted in place over the expansion joints. A tight-fitting full-width tailgate minimizes loss of bulk loads such as grain or sand. With the tailgate closed, the wedge-type anti-rattle latches give extra support to the side panels. When open, the tailgate is supported by two strong vinyl-covered chains.

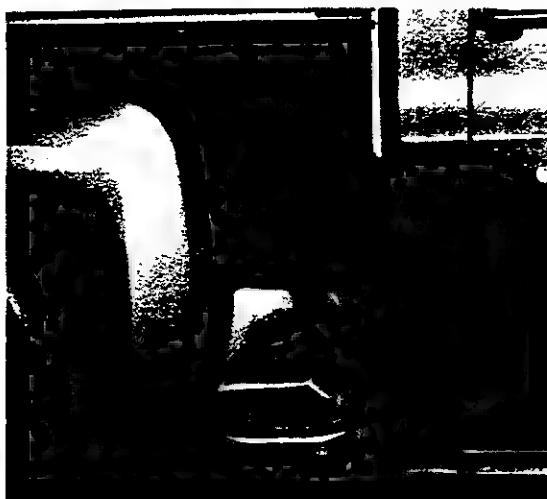

On each side of the body, Stepside/Fenderside pickups have a running board and step just forward of the fender. This step is a great convenience in jobs requiring frequent

working of the load from the side.

Reinforced pockets (2" x 1.38") for the addition of stake racks are provided to increase the bulk carrying capacity of the box. On 6.5 ft bodies there are 2 pockets on each side and on 8 ft. bodies there are 3 pockets on each side. See the diagram at left above for location of these stake pockets.

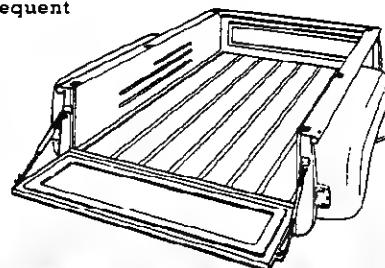

Side panels, tailgate, and front panel are fabricated of 2-side galvanized steel as are the platform cross sills and skid strips.

All metal body panels are primed for corrosion protection, and the Elpo electro-coating process is used to prime the side panels, tailgate, and front panel to assure that all surfaces of these more complicated components—even surfaces not visible—receive a coat of prime paint.

### Convenient Side Step

A convenient running board and step on each side of the body facilitates working of cargo from the side.

### Steel Skid Strips

Seven flush steel skid strips hold floor planks securely, yet allow expansion with changes in temperature and humidity. Recessed bolt heads prevent cargo damage in loading and unloading.

## R/V PICKUP

### **SOLID AND TWO-TONE\* EXTERIOR COLOR COMBINATIONS**

The application of paint for solid and two-tone exterior color combinations is shown below.

**Solid color** paint (ZY1) is standard on all models. All painted areas of the cab, front end sheet metal, and box are the same color. A white decal is applied to the raised "Chevrolet/GMC" lettering on the tailgate, except with Frost White, then a black decal is applied. (A bright trim plate covers the lettering on Fleetside/Wideside models when the Silverado/Sierra Classic Model Option is ordered.)

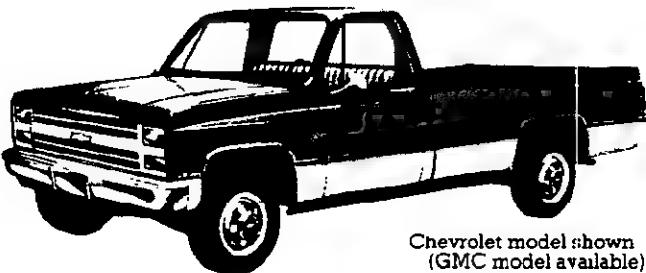

Chevrolet model shown  
(GMC model available)

**Conventional two-tone** (ZY2) consists of color code 1 on cab roof and cab back panel above the belt line, with color code 2 on the remainder of the cab, on the front end sheet metal, and on the pickup box. A white decal is applied to the raised "Chevrolet/GMC" lettering on the tailgate, except when color code 2 is Frost White, then a black decal is applied. (A bright trim plate covers the lettering on Fleetside/Wideside models when the Silverado/Sierra Classic Model Option is ordered.) Includes cab back panel applique and molding, except with the Silverado/Sierra Classic Model Option where it is already included

GMC model shown  
(Chevrolet model available)

**Special two-tone** (ZY3) paint colors are available only on single rear wheel Fleetside/Wideside Pickup models and include the YG1 molding package consisting of black vinyl body side and rear moldings with bright trim, bright wheel opening moldings, and bright trim for front side marker lights and tail lights (except with the YG3 molding package or the Silverado/Sierra Classic Model Option where bright body side and rear moldings with black paint trim are substituted). Color code 1 is applied to the areas above the moldings (including the cab roof). Color code 2 is applied to the areas below the moldings. A white decal is applied to the raised "Chevrolet/GMC" lettering on the tailgate, except when color code 1 is Frost White, then a black decal is applied. (A bright trim plate covers the lettering when the Silverado/Sierra Classic Model Option is ordered.)

## R/V PICKUP

### SOLID AND TWO-TONE\* EXTERIOR COLOR COMBINATIONS

The application of paint for solid and two-tone exterior color combinations is shown below.

**Deluxe two-tone** (ZY4) paint colors are available only on single rear wheel Fleetside/Wideside Pickup models and include the YG1 molding package consisting of black vinyl body side and rear moldings with bright trim, bright wheel opening moldings, and bright trim for front side marker lights and tail lights (except with the YG3 molding package or the Silverado/Sierra Classic Model Option where bright body side and rear moldings with black paint trim are substituted). Also includes cab back panel applique and molding (except with Silverado/Sierra Classic Model Option where it is included). The cab roof, cab back panel above the belt line, and the area below the moldings are painted color code 1 with color code 2 applied on all other areas. A white decal is applied to the raised "Chevrolet/GMC" lettering on the tailgate, except when color code 2 is Frost White, then a black decal is applied. (A bright trim plate covers the lettering when the Silverado/Sierra Classic Model Option is ordered.)

## R/V PICKUP

### SOLID AND TWO-TONE\* EXTERIOR COLOR COMBINATIONS

The application of paint for solid and two-tone exterior color combinations is shown below

**Exterior Decor Package (ZY5)**  
paint colors and trim are available only on single rear wheel Fleetside/Wideside pickup models (see Interior and Exterior Color Availability Chart). The package includes the moldings described under Special Two-Tone. In addition, it includes dual-tone body side and rear tape decal striping keyed to the exterior body color. This striping is applied to the front fenders, side doors and pickup box sides and tailgate a few inches above the styling crease line.

The areas above the striping and below the moldings are painted color code 1. Color code 2 is used between the striping and the molding. A bright spring-loaded, stand-up type hood ornament is included on gasoline engine models.

When used with the Silverado/Sierra Classic Model Option, the cab back panel applique and molding included with this model is deleted.

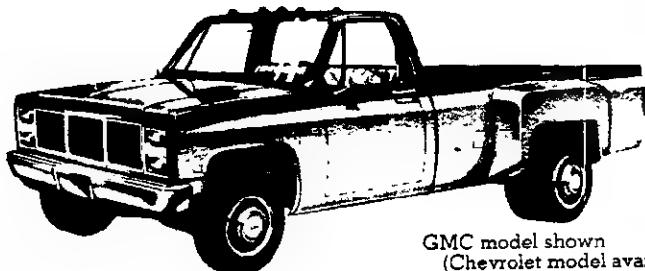

GMC model shown  
(Chevrolet model available)

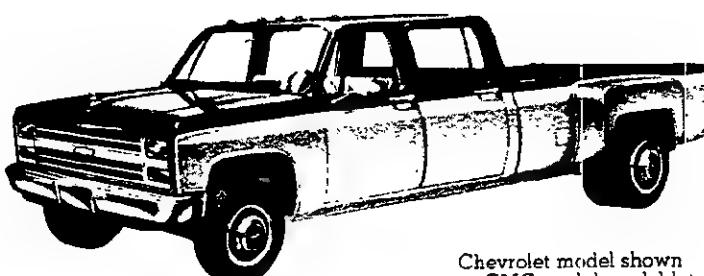

**Special Big Dooley/Heavy Hauler two-tone (ZY9)** paint colors are available only on Fleetside/Wideside Pickup models with dual rear wheels (see Interior and Exterior Color Availability Chart). The package includes dual-tone body side and rear tape decal striping keyed to the exterior body color. This striping is applied to the front fenders, side doors and pickup box sides and tailgate a few inches above the styling crease line.

The areas above the striping are painted color code 1, and the areas below are painted color code 2. A bright, spring-loaded, stand-up type hood ornament is included on gasoline engine models. Bright trim for front side marker lamps, rear wheel opening extension clearance lamps, and tail lamps also is included for standard Custom Deluxe/Sierra models.

When used with the Silverado/Sierra Classic Model Option, the cab back panel applique and molding included with this model is deleted.

\*Optional at extra cost

# R/V PICKUP

## VALUE DECOR PACKAGE

### **YJ6 VALUE DECOR PACKAGE (R/V Fleetside/Wideside Regular-Cab Pickups with single rear wheels only)**

The Value Decor striping package is available in four colors, and requires ZY1 solid paint. See the chart below for color availability. The stripes are applied a few inches above the styling crease line on the front fenders, side doors and pickup box sides and tailgate. The bottom stripe is 1 1/2" wide and the three upper 1/4" stripes are separated by a 1/4" clear space which allows the exterior paint color to show through between them. Includes a blacked-out grille and head-lamp bezel treatment on all models and Rally wheels on R/V 10/1500 models. Not available with YE9 Silverado/Sierra Classic Trim, R05 Dual Rear Wheels or body side moldings

### **YJ6 COLOR AVAILABILITY CHART**

Exterior Color	Primary	Secondary	Available Stripe Colors			
			White 12A	Red 72A	Blue 29A	Black 19A
Black, Midnight	19	19	X	X		
Blue, Light (Metallic)	21	21	X		X	X
Blue, Midnight	29	29	X		X	
Bronze, Indian (Metallic)	66	66	X			
Copper, Canyon (Metallic)	55	55	X			X
Gold, Nevada (Metallic)	67	67	X	X		X
Gray, Steel (Metallic)	90	90	X	X	X	X

## Note to Prospective New Vehicle Buyers

The information contained in this booklet is published in compliance with the National Highway Traffic Safety Administration Act.

General Motors Corporation reserves the right to change the specifications during the model year. There may be variances between the information contained in this booklet and the information provided with the new vehicle you select. Please refer to the Warranty and Consumer Information materials which come with the new vehicle for information specific to that vehicle.

## VEHICLE STOPPING DISTANCES

The following tables give stopping distances under four different braking conditions. All GM models listed will have stopping distances equal to or better than the reported figures.

These figures represent stopping distances from 60 mph by limiting the force on the brake pedal to 150 lbs. as specified in the Consumer Information Regulation 575.101. Stopping distances may be shorter than those reported when pedal force in excess of 150 lbs. is applied.

## Fully Operational Service Brake

A fully operational service brake system is the regular braking system that applies the brakes to all four wheels. The figures represent the stopping distances recorded under light and maximum load.

Light load includes the normal weight of the car, oil, coolant, and a full tank of gas plus 300 lbs. allowance for driver and passenger.

Maximum load is GM's recommended full-rated load. It includes oil, coolant, full tank of gas and all optional equipment that weighs over

**NOTICE: These tables indicate braking performance that can be met or exceeded by the vehicles to which each table applies under different conditions of loading and with partial failures of the braking system. The information presented represents results obtainable by skilled drivers under controlled road and vehicle conditions, and the information may not be correct under other conditions.**

5 lbs. plus the passenger and luggage load listed on the tire placard. (The placard is located on the rear face of the driver's door.)

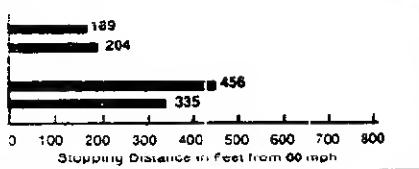

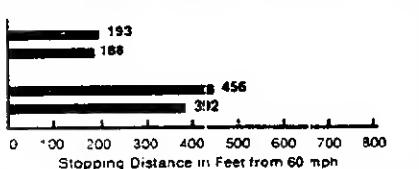

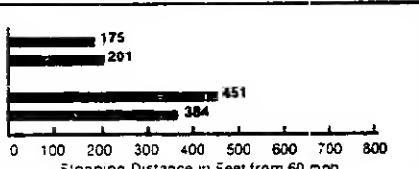

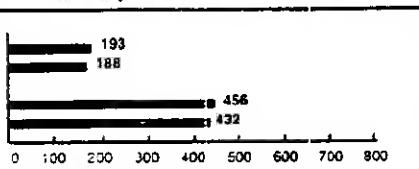

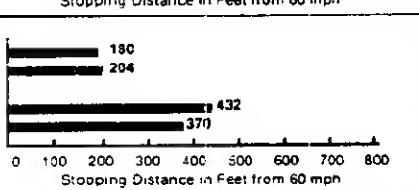

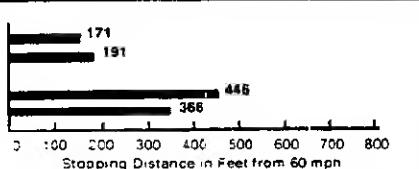

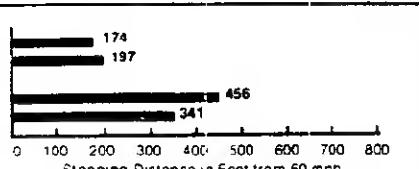

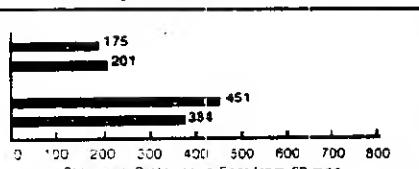

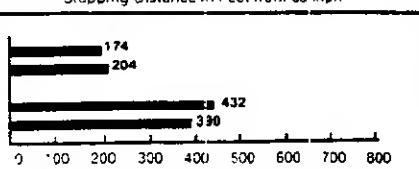

## Emergency Service Brake System

The emergency service brake system means that only a portion of the fully operational service brake system is in operation. A red light in the instrument panel indicates when this condition exists. The figure represents the most adverse condition, whether at light or maximum loads, when two of the four service brakes are purposely deactivated.

## Brake Power Unit Failure

The figure applies only to cars equipped with power brakes and represents the stopping distance recorded under maximum load after purposely deactivating the power assist unit. Brake power unit failure means the loss of power assist only and does not imply the loss of ability to stop the car. However, in case of power assist failure, it does require more force on the brake pedal to stop than it does to stop a car equipped with non-powered brakes.

# UNIFORM TIRE QUALITY GRADING

The following information relates to the tire grading system developed by the National Highway Traffic Safety Administration which will grade tires by traction and temperature performance:

## TREADWEAR

The treadwear grade is a comparative rating based on the wear rate of the tire when tested under controlled conditions on a specified government test course. For example, a tire graded 150 would wear one and a half (1½) times as well on the government course as a tire graded 100. The relative performance of tires depends upon the actual conditions of their use, however, and may depart significantly from the norm due to variations in driving habits, service practices and differences in road characteristics and climate.

## TRACTION - A B C

The traction grades, from highest to lowest are: A, B, and C, and they represent the tire's ability to stop on wet pavement as measured under controlled conditions on specified government test surfaces of asphalt and concrete. A tire marked C may have poor traction performance.

**WARNING:** The traction grade assigned to this tire is based on braking (straight ahead) traction tests and does not include cornering (turning) traction.

## TEMPERATURE - A B C

The temperature grades are A (the highest), B, and C, representing the tire's resistance to the generation of heat and its ability to dissipate heat when tested under controlled conditions on a specified indoor laboratory test wheel. Sustained high temperature can cause the material of the tire to degenerate and reduce tire life, and excessive temperature can lead to sudden tire failure. The grade C corresponds to a level of performance which all passenger car tires must meet under the Federal Motor Vehicle Safety Standard No. 109. Grades B and A represent higher levels of performance on the laboratory test wheel than the minimum required by law.

**WARNING:** The temperature grade for this tire is established for a tire that is properly inflated and not overloaded. Excessive speed, underinflation, or excessive loading, either separately or in combination, can cause heat buildup and possible tire failure.

These grades will be molded on the sidewalls of passenger car tires.

WHILE THE TIRES AVAILABLE AS STANDARD OR OPTIONAL EQUIPMENT ON GENERAL MOTORS VEHICLES MAY VARY WITH RESPECT TO THESE GRADES, ALL SUCH TIRES MEET STRINGENT GENERAL MOTORS PERFORMANCE STANDARDS AND HAVE BEEN APPROVED FOR USE ON GENERAL MOTORS VEHICLES.  
ALL PASSENGER CAR TIRES MUST CONFORM TO FEDERAL SAFETY REQUIREMENTS IN ADDITION TO THESE GRADES.
